

LANG+FULTON

ARCHITECTURAL GRATING PANELS AND STEEL LOUVRED GRILLES FOR BALCONIES AND BALUSTRADES

Lang+Fulton specialises in supplying custom-sized panels for balustrading from a comprehensive range of architectural gratings and louvred grilles.

With over 30 years experience, the company is able to recommend the most appropriate product for a particular project.

Gratings

The choice of grating can provide a particular visual emphasis. Smaller apertures which have anti-climb properties are most appropriate for balconies.

Stretto

Closely spaced 25x2mm horizontal flats at 11, 22 or 33mm intervals

Quattro, Alto

Square and rectangular apertures with equal flats for similar front/back appearance

DemiQuattro, DemiAlto

Square and rectangular apertures with unequal flats.

Terra34, Micro34

40mm round bar for through-visibility with a vertical or horizontal flat bar.

Louvres

Provide up to 100% visual screening

DeltaWing, DeltaBox

Pressure-locked for a crisp aesthetic with a linear or geometric appearance.

Italia

Electrofused range with a profiled louvre for 80% or 100% screening.

Manufacture and Finish

Pressure Locked (PL)

Made entirely from flat bars of either equal or unequal section.

Electrofused (EF)

Made from flat bearing bars and round transverse bars.

All gratings are framed up to 1500mm wide, designed to BS 6399-1.

A combination galvanized and polyester powder coated finish is recommended, in any RAL colour.

Supply and Services

Panels are supplied throughout the UK and Ireland, framed and fully finished for immediate installation.

Lang+Fulton offers a full design service
