

Maersk House is the head office of The Maersk Company UK Ltd in Aldgate in the City of London.

This prestigious building is surrounded by attractive planting and stylish lighting. The boundary demarcation is provided by a combination of a low wall faced in polished slate and a **Roma -3** grating fence supplied by Lang+Fulton.

The **Roma- 3** fence with a 62x132mm aperture was chosen to complement the contemporary architectural styling of the building.

The contract included pedestrian access and two sliding gates which were supplied to take automated operating gear which was installed by a specialist company.

The fencing and gates were hot-dip galvanized and polyester powder coated in white for a low maintenance, durable finish.
