A
BEAUTIFUL
USE
OF
SPACE

A BEAUTIFUL USE OF SPACE

At Ideal Standard, we believe bathrooms should be living places not just functional spaces. For us, they're far more than just places to brush your teeth. They should be places to relax, to make yourself beautiful, to refresh and re-energise.

So, for the past 100 years we have been designing products to help you create your ideal bathroom.

Whether that is a place to escape, a boudoir, a playroom or a sanctuary, it is always a beautiful use of space.

BIG THINKING FOR SMALL SPACES

Concept Space 80cm furniture or pedestal basin; corner wc; Simplicity 80cm shower tray; Kubo 80cm shower enclosure. Concept Space 80cm basin unit; tall column unit (Dark Walnut finish). Concept 800mm mirror, 600mm towel rail; toilet roll holder with cover, glass toothbrush holder. Concept blue basin mixer, Easybox Slim thermostatic shower mixer with square faceplate; Idealrain M3 shower kit.

Space is the ultimate luxury. Space to live, to relax or just be by ourselves. No matter how much we have it never seems enough and this is doubly true in the bathroom. **Concept Space** is designed to help you get more out of your bathroom. So whether you need more elbow room, clever storage or an ensuite to ease the morning rush, the Concept range introduces a range of compact solutions.

SLIMMER DESIGNS FOR MORE ROOM TO MANOEUVRE

Slim basins and compact wcs shave precious centimetres off the projection which makes a big impact on user comfort in small or awkward spaces.

In this cosy ensuite a standard wc wouldn't give enough leg room but the Concept Space corner wc turns into the centre and increases wall space for a tall storage unit. A generous 80cm basin tucks into the opposite corner and its short projection of 380mm means there's still plenty of room to use all the facilities without feeling cramped.

Concept Space basin units have one sleek drawer front but hidden inside there's a deep drawer for fresh towels and a second drawer for grooming accessories.

PLAN MORE BATHROOM IN THE SAME SPACE

Concept Space features:

1. Short projection Cube, Sphere and Arc basins
2. Compact and corner wcs
3. Basins which fit into corners
4. A spacemaker bath and square shower bath
5. Intelligent, space-maximising storage ideas
6. Fully compatible with the full Concept range (see page 41)

Left and right hand basins are designed to sit right into a corner making use of every inch of space. Concept Space 60cm furniture or pedestal basin with left hand platform, shown with semi pedestal.

Short projection Concept Space furniture or pedestal basins can be used wall hung, with a pedestal, semi-pedestal or dedicated basin unit. Concept Space 70cm furniture or pedestal basin with left hand platform and basin unit in Elm finish.

Concept Space builds on space saving pieces in the existing Concept range which can now be combined with the new products for more planning opportunities. Concept Cube 55cm short projection basin.

The Concept Blue basin mixer features new technology that helps save water and reduce energy costs. It's the perfect complement to Cube, Arc and Sphere basin shapes.

Concept Space furniture is now available in six finishes and can be configured in freestyle or fitted combinations for you to create your own bespoke look. The Concept Space wc unit is left or right handed to give you more space when used against a wall and includes a handy storage compartment.

The Concept Space Guest furniture basin solution includes under basin storage and add on units.

SMARTER SPACE

The average family bathroom in the UK is about the same size as a king size bed. This one room needs to provide an invigorating shower for dad, bath time for the kids and a sanctuary for mum. Using Concept Space products every spare inch has been utilised to meet everyone's demands without feeling cramped or compromising on style.

The next few pages show some typical plans which are designed to get you re-thinking your own space...

When space is really tight the 150cm square shower bath combines a full size showering area with a shorter bath.

With a wider room there's space for the bigger 170cm square shower bath and a larger basin. The basin and wc unit are handed to push the user into the middle of the room and there's storage for the whole family in the basin unit and above the wc.

Concept Space 70cm furniture or pedestal basin with left hand platform; compact back-to-wall wc; 170cm square shower bath (left hand) with front panel and screen. Concept Space 700mm basin unit (left hand); 600mm wc unit with right hand storage; 600 x 300mm worktop; 600mm fill-in unit, 600mm wall unit (Gloss White finish). Concept 600mm towel rail; toilet roll holder with cover; metal soap dispenser. Concept Blue basin mixer; bath shower mixer.

EN-SUITE? EXTEND, CONVERT, REPLAN

If you've discounted the luxury of a private en-suite through lack of space these pages might make you think again. **Concept Space** is designed to maximise existing space and help you achieve the impossible.

This en-suite is the width of a one metre shower enclosure. Under normal circumstances the basin and wc would take up too much space to allow a person to use these facilities comfortably. Concept Space short projection products provide just enough extra leg room and space to dry off – making showering a pleasure.

Concept Space Arc 55cm short projection basin; compact close coupled wc with Arc cistern; Simplicity Low Profile 100 x 80cm shower tray; Kubo 1000 slider door. Concept 500mm mirror; towel ring; soap dish; toilet brush. Concept Blue basin mixer; Easybox Slim thermostatic shower mixer with round faceplate; Idealrain M3 shower kit.

This corner en-suite solution fits snugly into a larger bedroom. Fitted wardrobes can be installed up to the side walls to create a minimal contemporary look.

Concept Arc 45cm corner basin; Concept Space corner wc; Simplicity Low Profile 80cm quadrant shower tray; Kubo 80cm quadrant shower enclosure. Concept corner basin unit (Gloss White finish). Concept towel ring; toilet roll holder. Ceramix Blue basin mixer; Ceratherm 100 thermostatic exposed shower valve; Idealrain M3 shower kit.

Concept Space Arc 55cm short projection basin; compact wall hung wc; 170cm square shower bath, left hand, and screen. Concept slimline 500mm wc unit; 500mm semi-countertop basin unit; 200mm base unit; 500 and 200mm wall units; 1200mm worktop; square shower bath furniture panel (Gloss Grey finish). 500mm mirror; 600mm towel rail. Concept Blue basin mixer; Easybox Slim thermostatic bath shower mixer with square faceplate; Idealrain M3 shower kit, Moments swivel spout bath filler.

NEED MORE SPACE? MOVE UP NOT OUT

Loft conversions have reduced head height in the sloping roof. The use of short projection products and slimline furniture in this ensuite bathroom maximises the amount of floorspace available with full height.

Square shower bath furniture panels are available to match all six furniture finishes.

If you're bursting at the seams extending upwards or outwards can be a great way of adding another bedroom, extra bathroom facilities and property value. Planning with **Concept Space** products can help to maximise the use of your extra space without compromising on style.

The narrow Concept Space 200mm wide base and wall units help you configure more combinations to fit your space.

The square shower bath screen features a return panel to deflect water and prevent splashes. In this example there are no fittings on the bath rim; water is diverted to the bath or shower through the Easybox Slim thermostatic valve. The Moments wall mounted spout swivels out of the way when the screen folds back.

SHAPED TO FIT

Bathrooms have evolved to suit our modern lifestyle – but many have awkwardly positioned windows and doors that mean that standard products don't fit neatly. The **Concept Space** range includes the Spacemaker bath which tapers to fit around problems areas.

➤ This typical bathroom has a window in the centre of the outside wall which restricts over bath showering. The Spacemaker bath tapers to clear the window and provides extra leg space for the wc. The plan also shows how the short projection basin allows clearance for the door swing.

➤ The Idealfill bath filler delivers water through the combined filler and overflow. Idealfill allows you to choose where to position your fittings, independently of the filler, on or around the bath or on the wall. In this case the water is controlled through the Easybox Slim bath shower mixer.

➤ The Easybox Slim thermostatic bath shower mixer fits into a 43mm wall cavity and is designed for easy installation. Available as both a shower valve and bath shower mixer and with a choice of round or square faceplate.

Concept Space Sphere 55cm short projection basin; compact close coupled wc with Arc cistern; 170cm spacemaker bath, right hand, Connect angle bath screen. Concept 500mm mirror; 450mm towel rail; 500mm glass shelf, soap dish; toilet roll holder with cover. Concept Blue basin mixer; Idealfill bath filler; Easybox Slim thermostatic bath shower mixer with square faceplate; Idealrain M3 shower kit.

HIDDEN SPACES

The **Concept Space** guest solution is a modular basin storage system designed specifically for the smallest room in the house. Behind its smart good looks hides a bit of design ingenuity.

A downstairs cloakroom for visitors is a real advantage in most homes – but where to put it? Using Concept Space products its possible to fit a small, practical cloakroom under the stairs.

Concept Space guest furniture basin with left hand platform; compact wall hung wc. Concept Space wall hung guest basin unit, left hand (American Oak finish). Concept 400mm mirror; toilet roll holder with cover, ceramic soap dispenser, towel ring. Concept Blue basin mixer.

If you've more wall space a 200 or 300mm add-on unit is available for the guest basin unit to create a contemporary linear look. Glass tops are available in grey, brown or white.

The L shaped door of the guest basin unit reduces the projection on the door swing when open. The door also includes an internal storage box for easy to reach items.

The combination of a corner wc and floorstanding guest basin unit creates this stylish cloakroom within a very small footprint.

Concept Space guest furniture basin, left hand platform; corner wc. Concept Space floorstanding guest basin unit, left hand (gloss white finish). Concept 400mm mirror; toilet roll holder with cover, metal soap dispenser. Concept Blue basin mixer.

CONCEPT SPACE RANGE

SLIMMER,
BY DESIGN

Because everyone's space is different **Concept** was designed by Robin Levien to provide huge flexibility and choice. **Concept Space** is the natural development of that idea and adds another dimension to the Concept range. These products don't just solve space problems – they help you achieve the bathroom design you want.

In this compact bathroom every product has a part to play. The spacemaker bath is angled to allow for the door to open. The basin is left handed so it can sit snug into the corner and its short projection creates enough space for the user to step back and open the drawer. The compact wc opens up the small space and makes it feel less cramped.

Concept Space 60cm furniture or pedestal basin with left hand platform; compact close coupled back-to-wall wc; spacemaker bath, left hand. Concept Space 600mm wall hung basin unit; 200mm wall unit, 500mm fill in unit, 500mm top box (Gloss Walnut finish). Concept 500mm mirror with anti steam system, glass soap dish, toilet brush. Concept Blue basin mixer.

CONCEPT SPACE SAVING BASINS

CONCEPT SPACE SAVING BATHS

Concept square shower bath

- The design combines a contemporary square aesthetic with an ergonomically curved internal back rest for comfort.
- The showering area is a generous 85cm deep.
- The design allows maximum flexibility for the positioning of brassware. Rim mounted fittings can be placed at the end of the bath or along the back for double ended bathing (see below). A solution with no rim fittings is the Easybox Slim thermostatic bath shower valve combined with Idealfill or a wall mounted spout (see pages 10 and 12).
- The square shower bath screen features a return panel to deflect water back into the showering area. It opens both inwards and outwards for access and cleaning and incorporates a handy towel rail.
- The baths are available in Idealform or Idealform Plus+ which has double the reinforcement and a unique leg set for increased rigidity and strength.
- There is a choice of acrylic bath panels or wooden panels to match all 6 Concept furniture finishes.
- Available left or right handed.

170cm square shower bath, left hand
170cm square shower bath front panel in Elm, left hand

150cm square shower bath, left hand
150cm square shower bath front panel

Concept spacemaker bath

- The innovative design combines a contemporary angular shape with an ergonomically curved internal back rest for comfort.
- The spacemaker bath narrows to 55cm at the tap end to accommodate awkward bathroom shapes and obstructive windows or door swings.
- Available left right or right hand.

170cm spacemaker bath, left hand

The spacemaker bath is a great solution for awkward spaces. In this room a standard bath would overlap the door but the spacemaker bath narrows to 55cm and creates space for the door to open.

PRODUCT OPTIONS

FURNITURE

FITTED OR FREESTYLE?

Flexibility is at the heart of the Concept range and **Concept Space** furniture takes that idea one step further. Many of the new pieces can be combined in any way you choose and have a modular design which allows for mixing pieces from the freestyle and fitted ranges.

Concept Space 50cm Arc short projection semi-countertop basin; compact back-to-wall wc; Simplicity Low Profile 90cm quadrant shower tray, Kubo 90cm quadrant enclosure. Concept Space 600mm wc unit with left hand storage, 600mm fill in unit; 600mm wall unit, 600mm semi-countertop basin unit; 1200 x 300mm worktop (Elm finish). Concept 600mm mirror. Concept Blue basin mixer, Easybox Slim thermostatic shower mixer with round faceplate; Idealrain M3 shower kit.

A PLACE FOR EVERYTHING

If you dream of a beautiful bathroom it probably doesn't include cluttered surfaces. Storage transforms bathrooms and makes a small room look and feel larger. Concept Space basin units tuck two handy drawers into the space beneath the basin.

Concept Space basin units are supplied with a combination of loose internal storage boxes to fill half of the top drawer. Additional boxes are available to customise your storage.

Concept Space 50cm furniture or pedestal basin. Concept Space 500mm basin unit (Elm finish). Concept Blue basin mixer.

The Concept Space tall column unit is just 210mm deep but 1750 high. Glass shelves are included in the full height and there are two individual cupboards – so you can fill one with toiletries and leave the other for less glamorous items.

Concept Space 80cm furniture or pedestal basin; corner wc. Concept Space 800mm basin unit; tall column unit (Dark Walnut finish). Concept 800mm mirror, 600mm towel rail; toilet roll holder with cover, ceramic toothbrush holder. Concept Blue basin mixer.

We've already seen how useful corner products are for planning small spaces. The corner basin unit and mirrored cabinet provide essential storage above and below the basin.

The Concept Space wc unit offsets the wc to the left or right so you don't feel pushed up against the wall. The design includes handy storage in the offset space behind the wc. It's big enough for toilet rolls and cleaning materials and the door can hinged left or right for easy access.

Chrome finish legs are available as an option for all Concept basin units.

Concept Space includes a new range of mirrored cabinets available in a choice of white or aluminium sides to complement all furniture finishes. You don't need a small bathroom to take advantage of a mirrored cabinet and sizes range from 500mm to 1300mm.

The Cube 50cm short projection semi-countertop basin in slimline fitted furniture. 500mm semi-countertop basin unit, wc unit and 300mm base unit; 500mm mirrored cabinet and wall unit (Gloss white finish); worktop (Dark Walnut finish).

This layout uses furniture in a freestyle configuration. Concept Space 550mm basin, unit tall column unit, 600mm top box and fill in unit, in Gloss White finish.

The wall hung Concept Space guest basin unit is left or right handed with L shaped door and storage box inside the door.

Glass tops in grey, brown or white are available for the 200 and 300mm guest basin add on units.

CONCEPT SPACE SAVING FURNITURE

Concept Easybox Slim B1 thermostatic shower pack with square faceplate and Idealrain M3 kit	A5959AA

Guarantee

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

- All ceramic products are guaranteed for a lifetime.
- Idealcast and Idealform acrylic baths are guaranteed for 25 years from date of purchase.
- Showers, bath panels, furniture, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website: www.fastpart-spares.co.uk).
- Shower enclosures and bath screens are guaranteed for ten years and shower trays for 25 years.
- Parts (including push button flush valves and blower power packs on Whirlpool baths) are guaranteed for five years and will be replaced if found to be faulty.
- Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
- When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
- The guarantee is transferable 'it applies to the product not the purchaser' provided guarantee registration details are passed on to the new owner.

For full conditions please refer to our website: www.ideal-standard.co.uk/guarantee.aspx

Ideal Standard pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints.
