- 10 Public Washroom
- 12 Office Washroom
- 14 Schools Washroom
- 16 Taps and soap dispensers
- 18 Specifications

## CHOOSE YOUR TROUGH

# WASH TROUGHS WITH TAP DECK

Silhouette tap deck troughs give an overall feeling of modern minimalism with a streamline shape and sleek functionality. The washbowl has a dramatic angled gradient that drops down to a hidden waste area.

Because the entire trough is made from the same material, the seams are fused together, making joins minimal and creating a natural, flowing appearance as though the trough was made in one piece.

All troughs are approved by Fira for load resistance and meet BS EN14296 2005 load resistance requirements.

**+** 100% non porous material making troughs easy to clean and exceptionally hygienic.

**+** Available in 4 standard sizes or custom made to your required size.

**+** Available with wall hung brackets supplied or mounted on a vanity unit depending on preference.

Trough with Tap Deck		Custom Sizes	
<b>S062501</b>	1200mm 2 person washtrough	<b>S062901</b>	1200-1500mm configurable washtrough
<b>S062601</b>	1800mm 3 person washtrough	<b>S063001</b>	1501-1800mm configurable washtrough
<b>S062701</b>	2400mm 4 person washtrough	<b>S063101</b>	1801-2100mm configurable washtrough
<b>S062801</b>	3000mm 5 person washtrough	<b>S063201</b>	2101-2400mm configurable washtrough
		<b>S066001</b>	2401-3000mm configurable washtrough

\* All troughs are supplied with wastes

## CHOOSE YOUR TROUGH WASH TROUGHS WITH TAP DECK

The option of a wash trough with tap deck gives a space efficient solution to areas of high footfall requiring multiple hand-washing facilities. Select your accompanying brassware and accessories such as water-saving sensorflow taps and integrated soap dispensers for the ultimate in hygienic convenience.

To further this, the surface of every trough in our range is completely non-porous, meaning potentially harmful bacteria is prevented from being absorbed into the material. The perfect solution for areas requiring a high volume of hand washing facilities.

## CHOOSE YOUR TROUGH

# WASH TROUGH WITH UPSTAND

For those with additional space or the décor that suits an upstand, choose the following option for the ultimate protection to walls; splashes are kept within the wash trough area, protecting the washroom environment. The hard-wearing, solid surface material is both fire retardant and UV stable, meaning it will not bleach or fade in sunlight.

It's also possible to repair surface scratches as damages can be reworked and brought back to the original finish. The upstand works perfectly with wall mounted taps and soap dispensers, ensuring handwash facilities are kept within a tight space.

**+** Troughs come undrilled allowing you to choose tap positions and add soap dispensers

**+** Wastes can be accessed from the top of the trough so blockages can be quickly addressed without having to gain access from underneath or behind.

**+** 5 year guarantee on all trough choices.

## CHOOSE YOUR TROUGH WASH TROUGH WITH UPSTAND

Choose a trough with an upstand in four standard sizes or create a bespoke size to suit your own environment. The upstand acts as a protective barrier to your decor, keeping splashes within the hand washing area. It also offers greater flexibility for those preferring wall-mounted brassware and soap dispensers.

Similar to the trough with tap deck, the angled gradient of the trough provides an architectural aesthetic, whilst keeping waste hidden from sight. The one-piece material is the same non-porous, hygienic construction, perfect for areas of high footfall, whether that be in public buildings, offices or even schools.

## PRODUCT IN USE

# PUBLIC WASHROOM

The flexibility that troughs give is second to none. Mount your chosen trough on a base of your choice to match your business and washroom aesthetic. A particular design feature that's great for public buildings, restaurants and other public spaces where a level of bespoke product choice enables your client to envisage how the product can work within their space.

We chose the Silhouette trough with tap deck as a three person trough to match our cubicle facilities. The ability to mount the trough on a custom made wooden base, complimented our industrial ethos and decor perfectly.

PRODUCT IN USE  
OFFICE WASHROOM

Troughs make for a great solution for offices where exceptional washroom facilities are taken into account for staff wellbeing and motivation. By providing modern and attractive facilities, employees tend to feel appreciated and more likely to produce great work.

A large, bespoke trough size was really the most appropriate solution for our office regeneration scheme. As a large building with multiple companies operating amongst our floors, we wanted to provide contemporary and attractive washroom facilities for employees to freshen up whilst having an easy cleaning solution for our cleaning team.

## PRODUCT IN USE

# SCHOOLS WASHROOM

Troughs play a vital role in schools, where washing facilities not only teach young children, healthy and safe habits but provide a safe and comforting environment that children can thrive within.

“ Gender neutral hand-washing areas has helped our school eliminate bullying. Whilst the trough offered us design flexibility, creating a fun and playful washroom so that every child is comfortable using the facilities. So they are safe, healthy and happy whilst within our care.

## THE SENSORFLOW TAP

# SENSORFLOW TAPS & SOAP DISPENSERS

A range of sensor-operated brassware is available with an integral sensor. Solving the demand for hygiene and water saving with hands-free electronic taps. Easily installed, the soap dispensers make for a great pairing. Choose your bottle package (see specifications) to suit your washroom size and demand.

Choose from a range of styles from bold, architectural brassware or sleek, modern mixers to suit your own personal preference, each with a 5 year guarantee.

5 YEAR GUARANTEE

Contour 21 soap dispensers offer superb style in both chrome and brushed steel finishes. Choose from wall mounted, upright and angled deck options for the perfect finishing touch.
