

Sandringham²¹

Britain's most popular bathroom

*Armitage
Shanks*

A TOTAL SOLUTION

- 7 Basin types, all with one and two taphole configurations
- 6 WC bowl styles
- 9 Close coupled WC cisterns with different flushing options
- 4 WC seats
- 8 Acrylic baths
- 7 Steel baths
- 30 Taps & mixers
- Urinal

Sandringham²¹ THE TOTAL PACKAGE

With over 10 million pieces sold Sandringham²¹ is Britain and Ireland's best selling bathroom suite. With over 70 items in the range, contemporary new looks and water saving designs, it will complement any style of bathroom or commercial installation.

Sandringham²¹ has a fresh, timeless style that adapts to almost any bathroom décor, traditional or modern. But this is more than just a great looking suite, it's also the best way to create a bathroom simply and economically. That's because every component has been designed by us to work together perfectly. And, because we manufacture every item ourselves, our quality control team can make sure that all products are within precise tolerances, guaranteeing a perfect fit every time.

Installing Sandringham²¹ is also easier because it's made in Britain, by a British company, specifically for the British market. This means standard UK fittings will work with it, taps and mixers are designed to work at UK water pressures and it meets all applicable UK Water Regulations.

REASSURANCE FOR THE HOME OWNER

- Attractive contemporary styling.
- Great design at a great price.
- A British brand you know and trust.
- Industry leading customer and business support services.

LESS HASSLE FOR THE INSTALLER

- Easy installation, industry specifications and standards met.
- Readily available throughout the country.
- Extensive range for residential and commercial projects.
- Parts and support service.

QUALITY YOU
CAN STAKE YOUR
REPUTATION ON

Made in Great Britain at factories
assessed by the Ceramic Industry
Certification Scheme.

Sandringham21 production facilities are
regularly checked to ensure they comply
with the quality standards outlined in ISO
9001. Only the best raw materials are
used, such as high grade ceramics, or the
copper and zinc alloy in our UK Water
Regulations compliant brassware.

Armitage Shanks employ the latest
technology and skilled British craftspeople
to make Sandringham21.

Machines can only do so much. To deliver
the best performing, most reliable and
highest quality product, the human touch
is needed. Our production teams have
honed their skills to an unrivalled level
over many years. We know ceramics.

BUILT ON HERITAGE

Over 200 years of ceramic heritage has gone into Sandringham21. Armitage Shanks manufacture in Great Britain, in our own factory, by skilled craftspeople who take pride in our reputation.

Back in 1966 Armitage Shanks put 149 years of sanitaryware manufacturing experience into the first generation of Sandringham. Over fifty years later we've used all we've learnt since to create the next generation: Sandringham21.

The same factory in the Staffordshire village of Armitage that produced the first Sandringham suite is producing the latest version too. Today, our experienced workforce use state of the art production facilities, but their ceramic skills remain the most vital part of the Armitage Shanks production process.

Sandringham21 Smooth
The next generation range includes a new contemporary toilet design with beautifully smooth, easy-to-clean sides. It's a great addition to Britain's favourite bathroom suite.

Sandringham21 SL
We've updated our range of single lever taps and mixers. Smart, simple and contemporary style with all the efficiency you expect from Armitage Shanks.

WATER EFFICIENCY

Saving water is no longer just a nice idea, it's become an essential way to save money and limited resources. Every Sandringham21 product is designed to use water as efficiently as possible.

PART G COMPLIANCE

Any new dwelling built after April 2010 must comply with Part G, a section of the Building Regulations which defines water efficiency standards. This applies to all new buildings and any building converted into a dwelling. Part G requires that sanitary fittings do not consume more than 125 litres per person per day, as determined by the Water Efficiency Calculator. The 2015/16 edition includes an option for local authorities to demand 110 litres per person per day.

DUAL FLUSH WCS

Sandringham21 close coupled WCs can be effectively flushed with a 4/2.6 litre dual flush cistern. This represents a saving of up to 52% over WCs using a single flush 6 litre cistern.

DELAYED FILL WC

The Sandringham21 low flush (4/2.6 litre) WC has a delayed fill cistern for even better water economy. The cistern only starts to refill once the flush is complete and it's totally empty, this eliminates the wasteful

topping up of cistern water that can occur during the flush cycle of many standard cisterns.

WATER SAVING BATH

A typical bath can hold 180 litres of water, the Sandringham21 water saving bath is a full size bath that uses 22% less water. A specially shaped interior allows the bath to be filled with a maximum 139 litres. The lower water capacity has a minimal effect on bathing but saves significant amounts of hot and cold water.

The Sandringham21 water saving steel bath has a lowered overflow. This full size bath has a 130 litre maximum water capacity, a potential water saving of 28% over a typical steel bath.

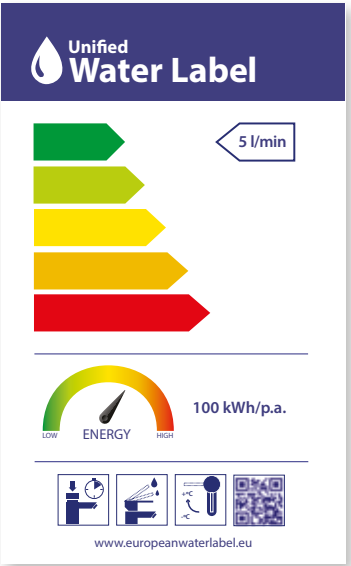

TAPS & MIXERS

Sandringham21 eco taps and mixers are fitted with flow regulators. Limiting the flow rate of pillar taps to 4 litres/min and dual control mixers to 5 litres/min, ensures only the amount of water necessary for washing or bathing is delivered.

WATER LABEL

The European Bathroom Forum have developed the Unified Water Label which uses a traffic light system to rate the water consumption of taps, showers, WCs, cisterns and baths. Armitage Shanks have signed up to the scheme and we have included the label in the following pages.

Full details are on their website:
www.europeanwaterlabel.eu

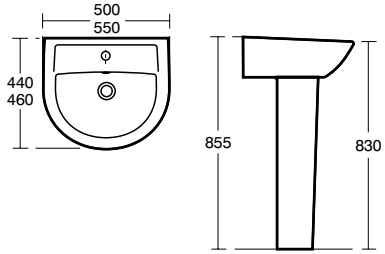

Sandringham21 residential basins

Sandringham21 pedestal basin 55/50cm

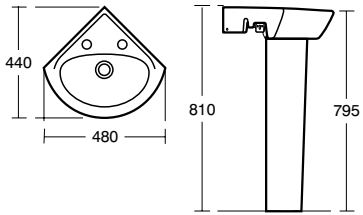

E894901	55cm Basin, one taphole
E895101	55cm Basin, two tapholes
E896201	55cm Basin, one taphole with chain hole
E894501	50cm Basin, one taphole
E894601	50cm Basin, two tapholes
E897601	Full pedestal
E015767	Brackets for wall mounted installations
S051601	55cm Basin-to-go, one taphole includes 55cm basin, pedestal & SL basin mixer
S049601	55cm Basin-to-go, one taphole includes 55cm basin, pedestal & basin pillar taps
Suitable for wall mounted or pedestal installation	

Sandringham21 corner basin 48cm

GUARANTEE

Our confidence in the quality and reliability of Armitage Shanks products enables us to guarantee many of them for a lifetime.

Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Idealcast and Idealform acrylic baths are guaranteed for twenty-five years from date of purchase.
3. Showers, bath panels, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase (cistern and shower door seals are not included. Replacements can be found on our Fastpart website: www.fastpart-spares.co.uk)
4. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty.
5. Cistern diaphragms and seals are not included. Replacements may be purchased through our parts supply service.
6. When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
7. The guarantee is transferable "it applies to the product not the purchaser" provided guarantee registration details are passed on to the new owner.
