

## Balustrade Gates

PCD14

Balustrade swing gates provide good security and are generally used to where aesthetics are important.

The gates can be finished in company or school's matching colour scheme and logos can be added.

Available in a range of standard heights and specifications to match the style of fencing, balustrade swing gates have an opening width to up to 16m.

*Very large span swing gates need a very large space to open into, so sliding gates may be more suitable.*

## Applications

<b>Prestigious Main Entrances</b>
<b>Perimeter—medium security</b>
<b>Schools</b>
<b>Airports</b>
<b>Commercial Premises</b>
<b>Industrial Units</b>
