

Ty Hafan, SULLY, WALES

CLIENT & ARCHITECT: Ty Hafan Childrens

Hospice

PROJECT FORMAT: Design & Installation

COMPLETION DATE: 2014

BUDGET: £190,000

FEATURES:

Wheelchair accessible space with a variety of dynamic and sensory items.

PROJECT BACKGROUND:

Ty Hafan offers comfort, care and support for life-limited children and young people and is dedicated to improving the quality of life for the whole family. This comfort and support extends out of the hospice and reaches right into the heart of the family home, and is completely free of charge to the families in Wales who need it.

DESIGN CONCEPT & OUTCOME:

The design for Ty Hafan is focused on integration for everyone who wants to play. The design provides accessible & traditional types of play such as swinging, balancing & bouncing as well as unique items which engage children on a variety of sensory levels. The concept of the area is formed around the creation of a desert island with a high up bespoke lighthouse multi play unit looking over the Bristol Channel at the bottom of the site. The lighthouse has suitable access for a wheelchair along with a range of play activities once you are on the unit. We have created some unique experiences for children in wheelchairs as well as interest & challenge for all others.
