

# Yalp Sona

## The Interactive Dance & Play Arch

## What is the Yalp Sona?

The Yalp Sona is an **Interactive Dance & Play Arch**. More specifically; it is an audio-guided play set, especially designed for the outdoors.

As perhaps **the most versatile and inclusive** interactive playset, over 100 have been placed in **schools...** the **public realm...**in **recreational facilities...**and even **senior homes**.

The large orange arch is a real eye-catcher and recognizable from afar.

Play one of the 10+ games it comes with, simply with the press of a button.

## Sona in Healthcare

Sometimes it is surprising to hear that the Yalp Sona has been installed at quite a number of **elderly homes and physical recovery centres**. A **special software package** is available for this sector, whereby different games and calmer audio feedback can be installed.

**The Yalp Sona is truly inclusive**, and completely accessible for **wheelchairs**. Yalp Sona helps people with **alzheimers** become more mentally alert, and there are countless examples of children with **mental or physical disabilities** who completely light up when playing the Yalp Sona. What is also great about having the Yalp Sona at senior homes, is that **children and grandchildren love playing it as well**.

## The Games:

10 games are pre-installed - and more are developed ongoingly. These are uploaded to your Yalp Sona automatically as they get released - FREE of charge! Here are a few examples:

**ReactionRace:** a game of speed and agility. Quickly jump on the number being called out.

The game speeds up all of the time - and high scores can be saved and claimed.

**DanceBattle:** Just as the name implies; a dance battle, featuring different music styles. After each dancing round the winners are called, and rewarded with applause!

**AnimalQuest:** Find the correct animal sounds! Once finding the corresponding animal, kids will hear "Well done!". Sona calls out different animals every time, and animals hardly ever stay on the same spot!

**Commando:** all about teamwork. "On the even numbers! On Blue! Beneath the arch! Off the floor!", are just a few examples of assignments you have to fulfil together with your team.

**CodeBreaker:** Challenging for young and old. Remember the codes, and walk to the correct numbers.

## Technical Details

**3G-Internet Connection** - Every Yalp Sona has a built in 3G-Internet Connection, so you can **remote control** your own device. Think volume-settings, (automatic) On / Off times, and even advanced usage statistics. Also, this way Yalp can service your device from a distance, and automatically transfer new games.

### **Vandalism-resistant and all-weather proof**

- The Yalp Sona is specifically designed for heavy-duty outdoor use. Of course this means it is all-weather proof and vandalism resistant. The orange arch is double-reinforced, and the electronics are tucked away in a safety box.

**Power usage** - When played, the Yalp Sona uses about 60 Watts. This is comparable to a light-bulb. The only power source you need is a regular power socket.

**Sound** - The Yalp Sona has two high quality speakers built into the arch. As an indicator, when at maximum volume the sound volume is 71dB. As volume-settings are fully adjustable, there is no need to worry about noise pollution.

**Further information** - Much more information about the Yalp Sona and the other Yalp Interactive playsets can be found on our international website. This includes an amazing selection of inspiring pictures and videos:
