

Yalp Toro

The Interactive Multi-purpose Sports Field

What is the Yalp Toro?

The Yalp Toro is an **Interactive** multi-purpose sports field. It's designed specifically for the outdoor public space, and consists of a roughly 13 x 13 meter field, with **four interactive goals**. The goals are connected, and controlled through a central game console.

The Yalp Toro takes the best elements of popular outdoor team sports, and gives these a dramatically enhanced and exhilarating dimension.

So don't be fooled: The Yalp Toro is no ordinary sports arena! World's favorite sports can now be played in an entirely new and **Interactive Way!**

Yalp Toro Interactive?

The four goals contain impact-sensitive panels, through which the Yalp Toro can facilitate a variety of sports and games. Examples being football (soccer) or field hockey.

The **goals are connected with one another**, and are controlled through a powerful yet highly simple game console; which Yalp developed from scratch. Of course these are completely weather-proof and vandalism resistant.

Through the built-in **LED-lights** and **Loudspeakers** the various available games are explained. These also communicate the score and comment on the performance. The Yalp Toro is addictively fun!

The Games:

The Yalp Toro comes with 6 games included as standard. New games are developed and released on a continuous basis. Yalp loads these games onto your Yalp Toro automatically through it's built in 3G internet connection - FREE of charge. A few examples:

Shifter: Four teams are playing and need to hit the goal of their colour. But after each goal, and after each 30 seconds, the goals change colour! Pay attention and seize the right moment to score. The team that scores three goals first wins

Bottle-Soccer: Every player defends their goal, while attacking other goals. As they get hit, goals 'drain': coloured LEDs start fading. The 'draining' can be stopped by hitting the goal again. Last player wins.

Switch: Four teams with each their own colour are playing. Each team has two points. If a goal is hit, that team will lose a point and the other three goals will switch places. If your goal is hit twice, you are out and another team can step in..

Red-Green: When hit, each goal switches colour from red to green. Green and Red teams take each other on, with the aim to turn all 4 goals in their own teams' colour.

Technical Details

3G-Internet Connection - Every Yalp Toro has a built in 3G-Internet Connection, so you can remote control your own device. Think volume-settings, (automatic) On / Off times, and even advanced usage statistics. Also, this way Yalp can service your device from a distance, and automatically transfer new games.

Vandalism-resistant and all-weather proof

- The Yalp Toro is specifically designed for heavy-duty outdoor use. Of course this means it is all-weather proof and vandalism resistant.

Power usage - When played, the Yalp Toro uses about 90 Watts. This is comparable to a light-bulb. The only power source you need is a regular power socket.

MET-Values - Thorough scientific study has been done with a number of Yalp interactive playsets - including Yalp Toro. It shows the Yalp Toro is highly exerting, (with MET-values of 6,9 and 8,3). This is even higher than team sports such as basketball and field-hockey.

Further information - Much more information about the Yalp Toro and the other Yalp Interactive playsets can be found on our international website. This includes an amazing selection of inspiring pictures and videos:
