The professionals' choice for quality timber products

M&M Timber is the UK's leading manufacturer of machine rounded timber products and a key supplier to the agricultural, utility, commercial, landscaping and play sectors.

For more than 30 years, M&M Timber have processed timber at the 25 acre saw mill at Clows Top, near Kidderminster in Worcestershire. Timbers used are carefully selected from certified, well managed forests including the Forest Garden Group sites in Scotland and Wales.

Every stage of the manufacturing process from debarking, machine rounding, profiling and manufacturing is undertaken with precision and care. Timber life is extended through kiln drying and by pressure treatment using Tanalith E wood preservative offering 15 or 30 year service life warranty.

Landscaping Timbers

M&M Timber landscaping products are manufactured from specially selected pine timbers providing the perfect solution for a diverse range of landscaping projects.

Landscaping timbers are available in a wide range of sizes and material grades to suit all projects and budgets. When used in accordance with TRADA (Timber Research and Development Association) installation recommendations the M&M Timber range will be longer lasting. The M&M timber range will provide market leading durability, underpinned with an unrivaled warranty system.

Timbers are kiln dried and pressure treated with Tanalith E, which has over 20 years of proven performance in protecting timbers around the world against the threat of decay or insect attack particularly those used in ground contact applications.

The preservative incorporates BARamine supporting absorption into the timbers as well as helping the protection against certain copper tolerant brown rots which can attack timber. All landscaping timbers are treated in accordance with British standard BS8417.

M&M Timber offer a service life warranty* of 15 years or 30 years.

*Terms and conditions apply

Landscaping Timbers

Unilog Pro timbers have been manufactured from specifically selected pine species to optimise preservative uptake providing the perfect solution for landscaping projects.

Machine rounded timbers offer an attractive, practical and cost-effective solution.

Unilog Pro timbers have been specified and installed in some of the most prestigious and innovative projects throughout the UK. These include, holiday & leisure parks, restaurant chains, schools and local authorities.

Unilog Pro is available in four diameters 100mm, 125mm, 150mm and 200mm. In the following standard lengths:

300mm	1000mm	2100mm	3000mm
600mm	1200mm	2400mm	3660mm
900mm	1500mm	2700mm	4000mm
	1800mm		

The timbers are easy to work with, offering flexibility to meet a variety of landscaping design requirements. Bespoke lengths available on request up to 6000mm with a maximum diameter of 300mm.

Landscaping Timbers

The Unilog Pro range is ideal for an array of applications:

- Earth retaining walls
- Border edging
- Raised beds
- Boundaries
- Pathways and steps

Conditioning of timber prior to pressure treatment is paramount to maximize Unilog Pro performance. M&M Timber kiln dry all timbers to an optimum moisture content (below 30%) in purpose built kiln drying vessels, prior to pressure treatment.

Bollards

Sleepers

A selection of the most popular machining options include:

Domed Top

Low Dome High Triple Rout

Low Dome Deep Triple Rout

Pencil Top

Dragons Tooth Top

Bullet Top

Scalloped Post

Chamfered, Deep Rout Duo

The new range of M&M Timber sleepers are manufactured using Radiata Pine which is kiln dried and pressure treated with Tanalith E wood preservative for durability and long service life.

Sleepers are available in two finishes:

- Rough sawn
- Planed, eased edge and sanded

The M&M Timber range of bollards are a premium choice for creating secure, tactile and durable boundary markers.

Bollards are manufactured solely from Radiata Pine which is renowned for its low splitting properties, resulting in a superior finish. All Bollards are kiln dried and sanded prior to pressure treatment and are backed up with a 15 year performance warranty.

Timber Bollards are supplied in a variety of lengths up to 3700mm, in diameters of 100mm, 125mm, 150mm and 200mm.

DuraSleeper can be used in a variety of configurations to create edging or wall features. Where a project requires a solution for corners the new DuraEdge provides a creative versatile option.

Rough Sawn Sleeper Range

Length	Depth	Width
600mm	200mm	100mm
1000mm	200mm	100mm
1200mm	200mm	100mm
1800mm	200mm	100mm
2400mm	200mm	100mm

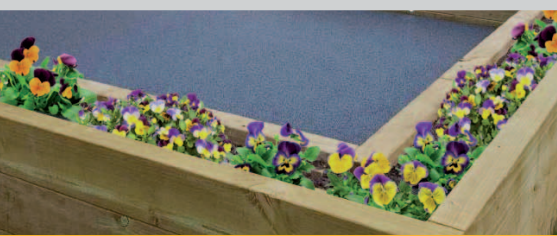

Planed, Eased Edge, Sanded Sleeper Range

Length	Depth	Width
600mm	195mm	95mm
1000mm	195mm	95mm
1200mm	195mm	95mm
1800mm	195mm	95mm
2400mm	195mm	95mm

Bespoke timbers can be manufactured for bulk orders required to meet specific projects.
