

The Round Timber Gazebo Collection

Outdoor Living

We believe your garden is somewhere you should be able to take a little time out – a space to escape and a place to entertain.

Whether you dream of a simple peaceful moment with a well-earned glass of wine and a good book, a leisurely meal outside with the family or hosting that amazing al-fresco party. A Gazebo from Forest Garden can turn your dreams into reality.

Not only are our high quality Gazebos hand built, our team of expert fitters will also install in your garden, so making your outdoors great couldn't be easier.

Eat, entertain and enjoy the outside whatever the weather.

Garden Gazebos

Hexagonal

We manufacture and hand build a range of Gazebos to suit every size and style of garden at our sawmill and workshop in the heart of rural Worcestershire. All our Gazebos are made from kiln dried, pressure treated round timber, which has an attractive smooth sanded finish.

Simply choose the size and style that best suits you and add on your chosen accessories to complete your dream garden building.

Step 1 Choose your roof type

We offer a choice of three roof types, each of which will give your Gazebo a different look and feel when finished.

Traditional
Timber

Pressure treated softwood is formed into a Log Lap roof structure and placed on top of a water-proof Tricoya lining, giving the Gazebo a simple, elegant and cost effective finish.

New England
Cedar

Western Red Cedar shingles are hand cut to size and fitted around the roof – placed on top of a water-proof Tricoya lining. The tiles are red in colour and give the Gazebo an elegant, contemporary look.

Country Thatch

Highest quality natural South African reed thatch is layered around the roof for a classically finished Gazebo. All our Country Thatch Gazebos come with a heavy duty, weather-proof lining, which is available in a choice of 3 colours. See page 16.

Step 2 Choose your size

Our Hexagonal Garden Gazebos are available in 4 sizes, simply choose the one that best suits your space. See the product pages for an indication of how many people they seat.

Garden Gazebos

Hexagonal

With a choice of 4 sizes, from the compact and elegant 3m to the spacious 4.7m, there's one for every size of garden. Smaller models offer a sanctuary, an ideal shady spot during long hot days, or even a shelter during the odd summer shower. Larger models provide plenty of room for al-fresco dining and make the ultimate venue for entertaining friends and family. Whichever size you choose a Forest Garden Gazebo will provide a stunning focal point for your garden.
