

► Platform Ladder

Features and Benefits

- Secure level platform, enabling you to work hands free from the top of the ladder
- High grip rubber feet to guard against outward slip
- Twin rubber wheels for high level lateral grip
- Levelling facility for sloping ground
- Rear stabilising foot to reduce outward slip
- Stand-Off provides comfortable and correct body positioning
- Ladder-tie for securing to wall
- Wide base provides lateral stability and high resistance to roll over
- Rung-lock to fix ladder at desired height
- Easy to transport and store

Lightweight, versatile mini access platform.

Platform Ladder is a very fast, lightweight and safe personal mini access platform, ideal not just for painting, but for any external short duration work at heights of up to 7 m (reach).

Platform Ladder has been designed specifically as a temporary short duration piece of access equipment. The product meets the HSE guidelines which state that working from ladders should be for short duration work lasting no more than 30 minutes.

Comprising a secure gated platform and a special detachable ladder, Platform Ladder is both light enough to 'lift and shift' whilst still assembled, and easily transportable.
