

## Welcome...

The race of 2014 has begun; now in our 48th year of trading we offer our most complete range of seating. Our core Lecture Theatre and Auditorium seating products after nearly half a century still set the benchmark in terms of longevity and durability, while our Spectator and Inova Interactive Seating systems have been launched as a solution to changing seating requirements. We remain committed to maintaining our high level of customer service but our always looking to increase and would appreciate any feedback you have.

## Ice Rink Project Completed

**A leading nationwide Ice Rink management company enlisted help and experience from CPS Manufacturing Co to design, build and supply a complete spectator seating system for an Ice Rink.**

CPS took the project from a flat floor, designing and installing both the tiering and over 360 of our A2 spectator seats. The A2 seat pod is one of the most

cost-effective seats in the range, but will still provide many years of rigorous use. The full range can be viewed on our website. [www.cpsmanufacturingco.com](http://www.cpsmanufacturingco.com)

## Vario C7 in Prestigious College in Kent

CPS installed 129 Vario C7 into a prestigious private college in Ramsgate Kent. The C7 is one of CPS's original chair designs and due to its flexible design the chair can be used in either Auditorium or Lecture Theatre applications. In this project the Vario C7 model, which is suited to auditorium purposes, was chosen as it offered a greater seating capacity whilst retaining all the hallmarks of CPS durability and quality. CPS built and installed the tiering and seating onto an impressive balcony which overlooked the main hall and stage.

# Latest Projects

One of our most recent projects was an Alu Compact Theatre Stage, delivered to a remote village in the far west of Ireland in Co Galway.

The Alu Compact included a full curtain system and 12 Alu Rapid staging platforms. The staging system despite having a full curtain system is fully demountable and can still be stored compactly. The Staging system was received with great enthusiasm by all and with our Lifetime Warranty gave them the assurance of many years of trouble-free use and a virtually maintenance-free life.

## Seating with a difference

A market-leading financial products group created a 'Love it or Hate it' seating venue by using 10 different fabrics with only 88 chairs. The project has succeeded in getting a second or third glance every time! They used our most prestigious chair the Asset A30 which provides an exceptional level of comfort and is covered by our Lifetime Warranty.

## Product Spotlight

## Demountable Tiered Seating and Staging in a Town Hall

CPS recently installed a demountable seating and staging system for a Town hall project in North Yorkshire. The Hall which needed to upgrade their staging system used the CPS Alu Rapid Staging system to form a stage and a tiered structure for the audience. The Hall selected the Alu Rapid system due its flexibility and versatility coupled with easy assembly and compact storage.

The Asset A20 is our most popular Auditorium chair mainly due to its flexibility of use, but also its adaptability. The chair is easily adapted to fit bespoke criteria and can incorporate a number of different desk options meaning they can be used as a lecture theatre whilst providing auditorium comfort, making it ideal for cross purpose venues.

## CPS exhibited at the IIC Show

The IIC show brings forward solutions to help break down the economic and social barriers and prejudices that people with intellectual disabilities face throughout their lives. CPS showcased demountable access ramps, and bespoke staging products that assist especially where temporary disabled access is needed.

## CPS Sponsors of the Education Business Awards

CPS Manufacturing Co was proud to be a sponsor and present an award at the Education Business Awards held at the Emirates Stadium. CPS presented the music award to All Saints C or E Primary of Maldon, Essex, whose enthusiastic and dedicated singing in assemblies, the classroom and even on the way to lunch has already earned pupils and staff at the All Saints Primary the Sing-Up Platinum School Award.

## Customer Feedback

*It was REALLY GREAT to have you work with me on this week's event, I realise that it wasn't the most complicated of projects, but from the initial email through to the delivery, the build & finally the de-rig, you gave me a professional sense of security, that my trust in you & CPS was well founded, and in that respect you certainly over delivered.*

Events Hire Company

*Many thanks for your co-operation and we are glad to be working once again with friends we know will look after us.*
