Inova Interactive Seating Systems

CPS
EST. 1966

“The Inova seats can rotate 360°, allowing students to interact amongst themselves.”

*from concept
to completion*

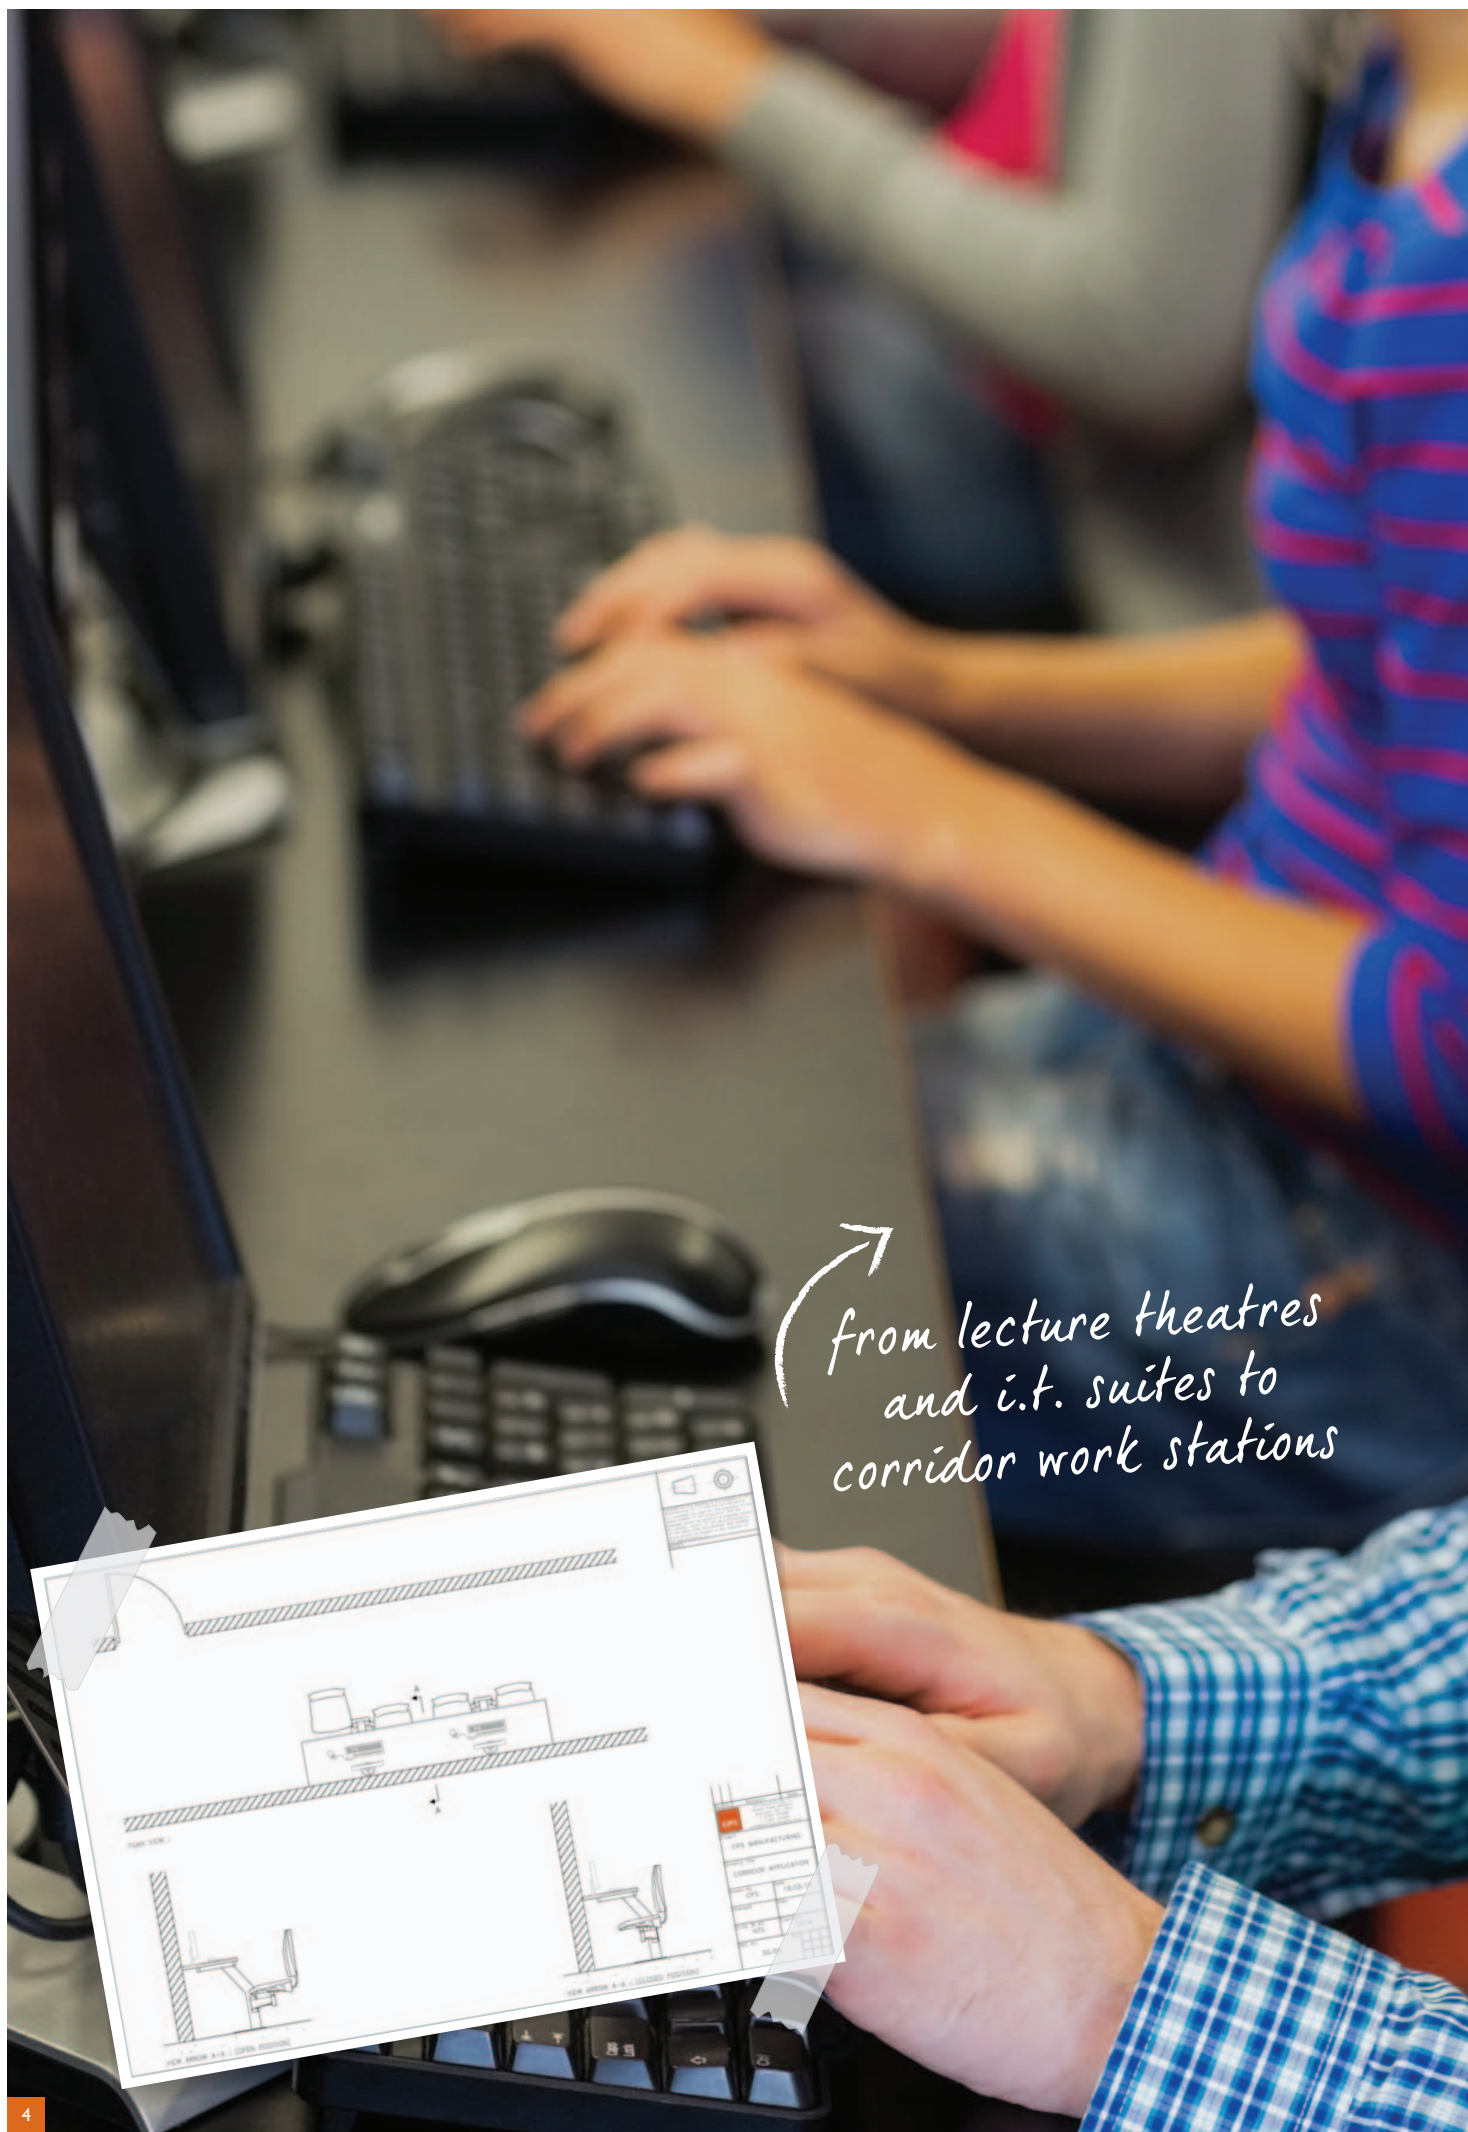

Inova Interactive Seating

With a constant eye on changes in seating and teaching requirements we have developed the Inova Interactive Seating System. The system is designed to meet the requirements of interactive teaching spaces which have gained popularity in Schools, Colleges, Universities and Training institutions. The seating system is also utilised in many Office, Canteen and Library settings due to the ease of access and interactive style, allowing you to work with someone directly behind. Interactive seating minimizes the risk of obstruction in the event of a fire with the chairs always returning to their original positions. The Inova Interactive Seating range complements our established range of Lecture Theatre, Auditorium and Spectator Seating.

Interactive Seating Applications:

- | | | |
|--------------------|-----------------------|------------------------------|
| ■ Lecture Theatres | ■ Universities | ■ Offices |
| ■ Auditoriums | ■ Colleges | ■ Corridors – no trip hazard |
| ■ IT Suites | ■ Schools | ■ Jury – no loose seats |
| ■ Library areas | ■ Restaurants & Cafés | ■ Commercial |

Design ■ Manufacture ■ Install ■ Service ■ Refurbishment ■ Support

The Inova Seating System

1. Choose your frame

The Inova Interactive Seating range is available in 3 different frame types, allowing you to tailor the system to your exact needs. The Inova Slim frame is the standard interactive frame where no electrical power is required. The Inova Double frame is designed to house electrical cables which enable your interactive seating to have power outlets and internet connection. The Inova Single frame is utilised where there must be no loose seating e.g. Court applications, Special educational use etc.

and café's*

Inova Interactive Seating embraces a new way of teaching and causes greater interaction between colleagues in the education and training environments.

- Face the Lecturer as a conventional chair.
- Turn around to interact with the colleagues behind.
- Favoured by the Fire Officer over loose swivel chairs in many rooms due to the reduced fire hazard.
- Chair automatically returns to closed position.
- Can be upholstered in fabrics of your choice.
- Encourages the class to work together and learn from each other.
- Helps provide a meaningful, enjoyable atmosphere.
- Provides the opportunity to implement other teaching styles.
- Offers ease of access as the arm rotates forwards and backwards as well as swivelling 360°.

The Seats

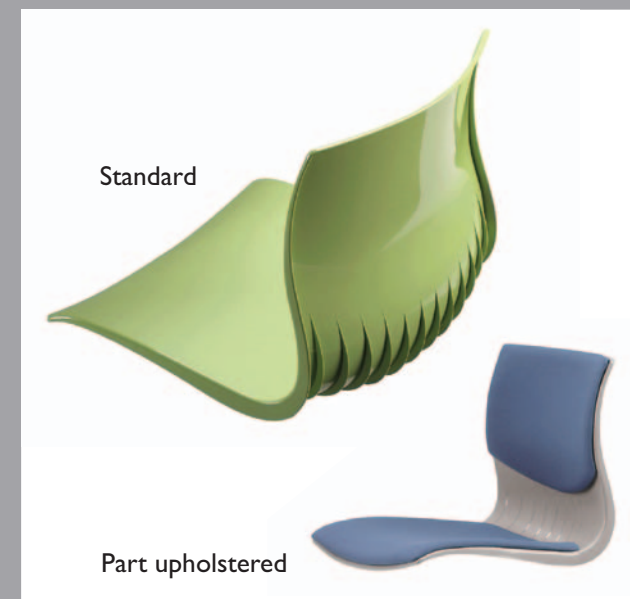

Opra

Available in a selection of finishes and upholstery options.
An extremely comfortable operator chair with increased back support. Ideal for longer periods of use e.g. Interactive lecture theatres.

Plasawood

Available in a selection of finishes and upholstery options.
An ergonomic but extremely durable chair crafted from one piece of plywood, ideal for installations of frequent use.

Plasa

Available in a selection of colours and upholstery options.
An ergonomic plastic seat allowing movement for increased comfort and is an easy clean solution for canteen type applications.

Erga

Available in a selection of colours and upholstery options.
A contemporary seat with curved back support providing an exceptional level of comfort and is ideal for multipurpose installations.
