

Welcome...

Things are warming up at CPS HQ as we enter the hectic maintenance period where universities look to update their lecture theatre and auditorium seating systems. It's certainly a challenging time for us but we have processes in place to ensure these tight deadlines are met.

We were delighted to welcome the Walt Disney Company to our offices recently - it's always nice to meet our customers, old or new. The feedback we received since their visit has been very encouraging and we hope this is the start of a long and successful relationship.

We'd love to help you with any project you're working on regardless of its size and complexity. From concept to completion, we've got it covered. Enjoy the read.

Walt Disney comes to Doncaster

CPS has acquired the universally known Walt Disney Company to its ever growing list of customers.

The American entertainment giants paid a visit to CPS headquarters in Harworth to check up on the progress of their order. The leading seating and staging company is to provide bench seating for the Frozen attraction at the Hong Kong Disneyland Park.

CPS's bench seating has been designed with comfort in mind and has been built to last. The seating also comes with an unrivalled and unique Lifetime Warranty - these are the kind of benefits why the Walt Disney Company chose CPS to provide the required seating.

Another key factor in securing the order was CPS's ability, as seating manufacturers, to quickly turn around the order and meet the strict deadline coupled with organising the air freight. This flexible approach to its business is what gives CPS a leading competitive advantage over its competitors.

From winners and achievers to year 6 leavers

CPS can help make your summer events even more successful by providing you with a staging system that allows students not only to be seen, but heard. We can offer our full support and give you peace of mind with our unique and unrivalled lifetime warranty.

We can also give you expert advice on the way in which your performance hall or room can be fully maximised and how it will benefit from a professional staging system.

Gearing up for a busy summer

As students break up for their summer holidays, the majority of universities in the UK will be bustling with workmen working hard to meet strict deadlines to ensure the campus is looking its best ready for the start of the new semester.

As leading manufacturers of lecture theatre, auditorium and conference seating systems, there's still time for CPS to work their magic and play a key part in your annual summer maintenance programme to help make your teaching space look as good as the one above.

New demountable stage for Stoke Methodist Church

Here's a beautiful bespoke project we manufactured and installed for the Stoke Methodist Church. The base and handrail is made from solid oak and the craftsmanship involved in the project is second to none.

Our bespoke staging capabilities are very adaptable and we have the ability to create a stage of any size, any height and any shape. We are willing to tackle the most demanding staging projects however complicated it may be. Just get in touch and we'll do the rest!

New marketing manager for CPS

CPS is delighted to announce that Mark Turner has recently joined the company as marketing manager.

A graduate of marketing, Turner has significant experience within the sports, leisure and construction industries including marketing and communications positions at well-known Super League clubs Castleford Tigers and Hull FC.
