

TYLÖ DESIGN LINE

Design Line is a series of products consisting of four brand new sauna designs. Each one is an absolute concept of style, ready to be used. You can choose a size – or perhaps you like them as they are.

Panorama

Chic and beautifully designed, Panorama looks as though it belongs in a large, luxurious home. The combination of materials and the original style enhance the splendour and create a continuous flow of new angles and perspectives.

The discreet soffit light bar illuminates down onto large, tinted panes of glass and horizontal tiger ash. The interior is clad in vertical aspen panels. The three or four levels of elegantly overlapping benches are also made of aspen.
