## Lawn Edging

## VISIT US

At East Haddon, in the rolling countryside of Northamptonshire in England, Haddonstone has beautiful show gardens and an interior showroom where visitors can see many of the designs illustrated in this catalogue in their proper settings, see opposite. The garden and showroom are open every week from Monday to Friday ~ public holidays and Christmas period excepted ~ between the hours of 9.00 am and 5.00 pm. The gardens are also open on occasional weekends as part of the National Garden Scheme (Yellow Book) to raise money for charity. Brown tourism signs guide visitors to the gardens from the A428.

Haddonstone pieces may also be viewed at stockists across the UK as well as the RHS gardens at Wisley and Harlow Carr. In addition, Haddonstone, TecLite, TecStone and Technistone designs can be seen at Pennine Stone Ltd, Askern Road, Carcroft, Doncaster DN6 8DE. Haddonstone's catalogue can be obtained from the Building Centre, Store Street, London WC1 or viewed online at:

In the USA, Haddonstone offices have a permanent showroom display, whilst Haddonstone designs may also be viewed at stores and distributors across North America.

## WHY HADDONSTONE?

Haddonstone is a unique form of cast limestone with a surface texture similar to Portland stone. The material matures and weathers like natural stone yet, piece for piece, normally costs significantly less than quarried stone.

The ability to mould the Haddonstone material into almost any shape ~ faithfully reproducing new designs or producing replicas that are virtually indistinguishable from an antique original ~ has won the company numerous contracts ranging from leading international hotels and retail developments to listed National Trust properties and prestige residential projects.

The material used in every design, from the smallest planter to the largest Corinthian column, exceeds the compressive cube strength requirements of the United Kingdom Cast Stone Association and complies with all relevant UK and European standards, whilst TecStone also meets the requirements of all US standards.

Each design is hand made by Haddonstone in the UK or USA using moulds created within the company's extensive mould shops and studios. Using these same facilities Haddonstone can even manufacture non-standard architectural stone pieces to practically any shape, size or colour.

As Haddonstone maintains original models and/or moulds for every single design in the standard collection, and utilises the very latest vapour curing technology, customers can be reassured that the high quality of each stone produced is incredibly consistent whilst retaining the individuality of a hand-made product. The company even offers a five year warranty on cast stone garden ornaments.

Haddonstone can also be an enjoyable investment. At a Sotheby's auction, four Haddonstone Plaited Baskets sold for more than twenty times their current retail value.

Haddonstone ~ one of the few things in life that can grow more beautiful and valuable with the passing of the years.
