Connecting People with Places

Head office - Kent

Who are we?

We are a leading provider of effective and engaging outdoor sign displays and furniture, established in 1995 and offering a full service in design, print, manufacture and installation. We produce creative solutions that are designed specifically to engage the target audience, meet the needs and objectives of each stakeholder and enhance the environment for which they are intended; overall delivering a welcoming experience that is memorable, informative and sympathetic to its surroundings.

Our creative division is the perfect think tank for providing imaginative yet practical design solutions, and our fully equipped workshops can realise the production of any creative solution in wood, metal and recycled plastic.

What do we do?

We take the time to understand the project; our client's expectations; the desired outcome; the messaging and target audience.

Every project is different and each deserves a structured approach that clearly defines the objectives, challenges, resources and budgetary requirements. Function must always be a priority over form, but the aesthetics of any finished product and the impact on its immediate surroundings will be key in deciding on the most appropriate and effective signage solution.

We pride ourselves on attention to detail, ensuring clients pay the lowest possible price for the highest quality service. The wide range of clients we have and continue to work with illustrates our professional and conscientious work ethic and our passion for interpreting the culture and

history of our outdoor green spaces. We have the pleasure of working with the National Trust, National Parks across Britain, the Wildlife Trust, Landscape Architects, various Local Authorities and many other organisations and charities.

Our day-to-day working practices ensure projects are delivered efficiently, achieving the highest standards. We provide a friendly and informed point of contact, which enables high quality customer service. Tasks and roles are clearly defined from the outset and we seek client approval and sign off at every stage to ensure the project remains on track.

Waltham Forest Council - Lloyd & Aveling Park

Signs Displays
Monoliths

With its contemporary styling and flexible messaging, **dCIPHER™** will sit comfortably in an urban or rural setting. Constructed from stainless steel and available in a brushed finish or fully powdercoated, our monolith displays offer an affordable solution with a modern twist.

London Borough of Ealing – Pitshanger Park

Signs Displays

Public Information

Our public information displays have a wide range of applications including welcome signs, orientation displays and interpretation. We can work with you to create a sign solution that will attractively represent your brand, facility or attraction while welcoming visitors with clear information.

City of London – Farthing Downs

Signs Displays

Lecterns

Our durable lectern style interpretation displays are available in a range of materials and styles to suit your purpose and setting. This ever-popular sign format presents interpretative information at an angle designed to be easily accessible to children and wheelchair users as well as the general adult public making lectern signs ideal for a wide variety of applications.

Havering Borough Council – Havering, London

Signs Displays

Notice Boards

Our robust notice boards come in a range of materials and formats with single or multiple windows as needed. All are designed and built with secure locking systems as standard; so your notice board will be as vandal-resistant as we can make it.

City of London – Burnham Beeches

Signs Displays

Badging Signs

Great for everything from play areas to parks, gateways to visitor centres, our badging signs promote your brand and location in a way that puts you in context with your attraction or facility and promotes visitor awareness while at the same time improving the experience of your visitors.

St Albans City & District Council – Verulamium Park

Wayfinding Fingerposts

Whether you are building a full waymarking scheme from the ground up or just looking to expand or refresh your current site navigation, our sturdy and robust fingerposts are the perfect solution. We offer a wide range of materials and colour finishes with printing, engraving or casting options.

Wayfinding

Ladder Signs

Our durable ladder signs are perfect for assisting visitors in navigating your site or attraction. Their stacked design allows you to make best use of limited space without compromising on design or message. We can make the slats fixed or removable to allow you to change them if needed.

New Hall School
- Chelmsford

Zoological Society of London - London Zoo

Wayfinding Waymarking Posts

We can provide a complete waymarking solution including waymarking posts, discs and other trail markers, in a range of materials and finishes to keep your visitors on the right path. All our waymarking products can be fully customised with routed details and inset logo discs.

Hertfordshire County Council - Ver Valley

Furniture

Benches

All our benches are manufactured to the highest quality standards and are designed to be robust and vandal-resistant, so you can be sure of a product that will last and last. Choose from our range of standard designs or contact us for more information on our bespoke bench design service, which can bring your brand and theme to every aspect of your facility or attraction.

Furniture Litter Bins

Keep your venue clean by providing plenty of bins for your visitors to deposit their rubbish. Our litter bins are designed for use in public open spaces and are ideal for placement at high traffic intersections, near concession stalls or by entrances and exits to help keep your site clean and tidy.
