TIMBERPLAY CONTINUING PROFESSIONAL DEVELOPMENT [CPD] TOURS

AS PIONEERS

IN OUR FIELD

WE STRIVE TO

BE THE BEST AT

WHAT WE DO.

Keeping up to date with developments in our areas of expertise is a key aim. It is this knowledge, along with our specialist employees, that ensures we are well placed to give you the advice you need, when you need it.

Part of this remit is to offer a varied range of Continuing Professional Development (CPD) seminars. Created alongside clients, the topics covered are those the relevant industries are calling for. We are happy to come to your office to deliver any of these at a time to suit you – we'll even buy your team lunch.

Choose from the list of seminars within the brochure, or the CPDs can be tailored to suit your needs and time restraints. If you would like to find out more about a subject of particular interest, we would be happy to create something unique.

ALL ABOUT PLAY

ABOUT PLAY

[60 minutes]

Covering effective design of play spaces, landscape & play, risk & play, avoiding litigation and a 15 minute overview of Timberplay and our products.

A WORLD OF PLAY-

Projects & reference sites from around the globe

[60 minutes]

A more detailed overview of Richter Spielgeräte, their ethos, projects, products and world reference sites.

WATER PLAY

[30 minutes]

Water play can be very effective in captivating children, supporting the development of their social skills and understanding of the world.

What is it that water can deliver through play, that no other form of play can? What kind of maintenance issues does water play present?

ENGINEERING FOR PLAY

Quality & technical details [45 minutes]

A detailed explanation of types of wood, fixings, preservative systems and materials that we use. This CPD will help to explain the high level thinking, quality and thought leadership that goes into every aspect of development in our play equipment.

SIMPLY PLAY

Explanation of this play value assessment tool and exploration of how it can be used to improve design of play spaces [45 minutes]

Sheffield Hallam University and Timberplay work together in a "Knowledge Transfer Partnership Programme" to develop a freely available Play Value Assessment Tool. Carrying out the process should enable the development of a much improved play strategy, design rationale and informed design briefs, ultimately to the benefit of the users.

How to use the tool, interpret the results and incorporate them within the design process.

SAFETY SURFACING

[30 minutes]

A look at the different types of safety surfaces and the advantages and disadvantages of each. What are the benefits and drawbacks of these and how do they impact on play value?

What are the European standards and how do we interpret them.

RISK & PLAY

[60 minutes]

A detailed look at the role of risk within play? What are the risks and how do they compare to risks of other activities that children enjoy. What is the purpose of EN1176/7 and what are its limitations? What is the legal environment around risk and how can designers and play providers protect themselves against litigation?

LEISURE

**PLAY FOR LEISURE –
Making play pay [30 minutes]**

Using play to maximise dwell time and increase revenue for visitor attractions. Case studies showing real life examples where we demonstrate the returns on investment through integrating play.

EDUCATION

**EARLY YEARS & PLACES TO PLAY–
Designing for nurseries & schools**

Our sister company, Playgarden, offers expertise in design for early years and learning through play, using the landscape to incorporate different play opportunities for specific age groups, resources and equipment.

SANTA & COLE Street Furniture & Lighting

[45 minutes]

The story of Santa & Cole and the role they played in the urbanisation of Barcelona.

Possessing a fascinating and unique ethos, the highest requirements in design criteria and strong environmental credentials, we offer an overview of Santa & Cole, plus the product portfolio of brilliantly designed outdoor furniture and street lighting. We will also introduce the smart city concept, demonstrating how street furniture and lighting products can be an integral part of the framework for future cities.

THE EXTERNAL ENVIRONMENT

SPORT

CONCRETE RUDOLPH
WHEELED SPORTS PARKS

[30 minutes]

About Concrete Rudolph, why quality and build in wheeled sportsparks offer a better skate experience, our partnership with The Works Skate Charity, the consultation approach, technical detail, reference sites and examples.

MUGAs & MUSAs

[30 minutes]

Flexibility and configuration are key elements in our French partner Transalp's range. Bespoke options, interesting shapes, sizes, colours and materials, plus explanation of the patented noise reduction system.

MULTI USE GAMES & SPORTS AREAS

BUILD YOUR OWN CPD PRESENTATION

Alternatively, if none of the seminars within the existing portfolio are quite what you are looking for we can create something bespoke just for you. Build your own CPD seminar by selecting components from the list below, let us know which you are interested in, and we can combine the elements to create your perfect seminar.

	Seminars	Mins		Seminars	Mins
a	Play — the benefits of play and why we need play spaces	15	n	Product focus — Sand play	10
b	Safety surfacing summary	15	o	Product focus — Sensory play	15
c	Risk & Play summary	15	p	Product focus — Climbing	10
d	Children and the elements video	20	q	Product focus — Bespoke play structures	10
e	Play Provision for Early Years and Primary Education	20	r	Product focus — Water play	10
f	Natural play	15	s	Product focus — Toddler play	10
g	Simply play	10	t	Product focus — Teen play	10

k	Doing it with wood	15	x	Product focus — Wheeled Sports Parks — Elements	15
l	Environmental credentials of Richter	10	y	Product focus — MUGAs	15
m	Maintenance of play areas	20			

STUDY TOUR CPDs

Join us in Munich, Barcelona, Paris, or Amsterdam

One of the most enriching and intense forms of CPD comes within our Study Tours.

A 2-day visit to a European City. Site visits, factory tours, varied seminars, exchanging ideas and networking all make these inspirational trips very rewarding. We work hard to ensure the schedule incorporates as much as possible and our clients tell us how much they have learnt from these trips.

Richter Spielgeräte in Bavaria, Germany

This tour visits the picture postcard environs of Bavaria, the headquarters of our play partners.

The trip includes a tour of the workshop and factory, plus a programme which aids greater understanding of how Richter work, but also delves deeper into the world of play, the importance of risk and inspirational thought on how we, as an industry, can continue to push the boundaries in creating challenging and innovative spaces.

Along with this we visit sites that will stimulate thought in terms of design and build, including Richter's prototype test playground. We seek to incorporate all product ranges, taking in interesting new spaces, whether a public square or park, or a new space for skate. In addition we often visit a novel play space for all ages – the Sensorium.

Santa & Cole in Barcelona, Spain

This tour has design capital of Europe, Barcelona as its base.

From here delegates will take a journey to neighbouring Belloch, with a look around the Santa & Cole headquarters, finding out more about the company, their history and how they went about designing their product range. Detailed seminars on lighting and smart cities provoke conversation and lots of questions.

Far more than the usual office block, the site itself includes a converted chapel and the prestigious Telefonica University, both of which have benefitted from the inspirational Santa & Cole treatment. This has to be seen to be believed.

Day 2 of the visit explores the wonderful city of Barcelona, visiting various sites and installations, covering the full product range, whilst taking in the local culture, tapas and maybe a spot of Sangria.

MULTI RANGE STUDY TOURS

Paris & Amsterdam

The homes of our partners, Concrete & Transalp, respectively.

These tours have the same objective as the Richter and Santa & Cole visits, to share knowledge and exchange ideas but have a greater emphasis on site visits. The main focus is to see inspirational places around the cities, taking in locations which have installations from all of our partner brands; Richter Spielgeräte, Santa & Cole, Concrete and Transalp. The informative seminars, presentations and case studies will give clients a deeper understanding of the subject.

For more information on these trips or to book onto any of the CPD seminars please call Marie on **0114 282 3474**, or email, marie@timberplay.com
