

Play value

The caterpillar is a friendly play offer for small children. The harmonious appearance of the figure and the way in which it is possible to play from both sides offer a lively and pleasant basis for smaller playing spaces. The space partitions promote communicative play, but also make it possible to create borders and divisions of the play areas. This caterpillar type is equipped with a turntable, a two-way channel and shovels.

Fundamental characteristics

- friendly appearance
- sand play equipment

Suitable

- for small children's areas of:
 - public playgrounds
 - playgrounds situated near houses
 - kindergartens
 - children's homes
 - therapy institutions for children
 - camping sites
- nurseries

Planning information

The angles of the opposing wall elements and their number can be freely selected to a great extent. Both spread-out as well as more compact floor plans can be constructed. By freely selecting and arranging the individual elements, it is possible to carry out planning according to your requirements. The elements can also be used as partitioning play units without caterpillar head and tail.

Note

In the standard version, only the head and tail use colour in their design. The element installed in between is also available with a coloured trim (as shown in the photograph) at extra charge.

Caterpillar type 04

5.00025

Example of installation

scale 1:100

Safety check according to EN 1176

Components

- 1 head with horns
- 1 element: turntable, two-way channel, 4 shovels
- 1 tail with bell
- 2 posts

Installation information

Surfacing requirements corresponding to a fall height of ≤ 0.60 m (please refer to price list for more detailed information)

Foundations

- 2 items 50 x 50 x 40 cm excavation depth 60 cm
- 2 items 30 x 30 x 30 cm excavation depth 50 cm

Attention:

Exact measurements may vary, for all installation dimensions refer to current installation instructions.

Technical changes reserved.

Technical information

equipment of non-impregnated mountain larch

core-free

sawn timbers, core-free, thus decreasing the occurrences of cracking

plywood

wall elements and turntable made of waterproof plywood board, 30 mm

Corocord® rope

special ropes of "Hercules type"

horns of six-strand Corocord® rope of the special "Hercules type", abrasion-protected through heating of the six steel strands and melting the polyester sleeve onto them, standard colour rainbow

ground anchor

posts for bolt on, head and tail with foundation irons made of hot-dip galvanised steel

chains

short-link chains, 5 mm, welded before hot-dip galvanisation (stainless steel chains available on request)

posts made of stainless steel, glass bead blasted

bell made of brass

colour

colouring with solvent-free acrylic paints; the wood is processed in a way that allows the structure of the wood to remain clearly visible

Dimensions

(small deviations possible)

height	1.65 m
height of head	1.30 m
length of the element	
head	1.00 m
middle part	2.00 m
tail	1.00 m
weight	150 kg

For more detailed explanation of the quality characteristics see price list.
