WARRIOR

Secure Cycle Parking

The Commuter's Choice

Sold Secure is widely recognised within the insurance industry as a mark of quality. The 'Warrior' has achieved their Gold Standard which is testament to its superb design and security.

Sold Secure Gold is also approved by the Association of Chief Police Officers and Secure by Design.

With respect to security, Sold Secure Gold is a far higher attack standard than LPS1175 Level 1 which has been traditionally recognised by the building industry.

The Warrior is easy to use and has passed Health and Safety assessments from organisations such as Sainsbury's, NHS, UNITE, Birmingham City Airport and many local authorities throughout UK and Ireland.

Space within the locker allows the cyclist to store wet weather gear, helmet, spare parts and other personal belongings alongside their bike.

The value of the Warrior to a cyclist needing secure cycle parking will be far higher than the price that you need to pay, making it a valuable investment for new and existing developments.

Sold Secure has developed a three tier security grading system. The Gold rated locking devices offer the highest level of security.

Locker Management Service

On-line “Rent A Locker”

BikeAway, the company behind Warrior, also offer a cycle locker management service which can be self funding. This ensures that your cycle parking scheme is maintained and enables it to grow as demand increases. Please see www.cyclemanagement.co.uk

By introducing the BikeAway Management scheme, we are able to substantially reduce the unit price of each locker.

To improve cyclist choice, it may be beneficial for managed lockers to be used in conjunction with cycle stands (please see our vertical stands at www.bikeaway.com).

10 Year Manufacturers Guarantee

Made in the UK

The Warrior cycle locker has a 10 year manufacturers guarantee. Made from quality galvanised steel, the expected lifespan of Warrior exceeds 35 years.

WARRIOR

Flexible installation & delivery

Supplied built, optional installation

The Warrior is manufactured in Devon by a hi-tech steel fabricating company who also export garage cabinets to the motor trade around the world. They are able to negotiate a good price for quality steel enabling this high calibre product to be supplied to you at the lowest unit price.

The locker has a very small foot print (680mm by 1150mm) achieved by holding the bike vertically using a patented sliding hoop. There is no metal to metal contact with the bike.

If you have a project requiring secure cycle parking, please fill in our enquiry form at www.bikeaway.com/cycle-lockers/warrior/.

We will always give you our very best price and help you to make the right decision for your cycle parking needs.

If you are a Bicycle retailer and would like more information on the benefits of becoming a dealer for the Warrior, please visit our Trade Page at www.bikeaway.com/cycle-lockers/warrior/trade/
