

Designers and manufacturers
of playgrounds and slides

Piccadilly Gardens, Manchester

Welcome

Massey and Harris have been manufacturing play equipment in the UK since the 1930s and for 25 years under its current ownership. We supply a broad spectrum of clients including landscape architects, play companies and Councils and you will find our products in public parks, offices, private houses and destination locations all around the world. Our ability to design and manufacture innovative, high quality steel and timber play equipment to meet our clients specifications distinguishes us from the crowd.

Discover Design

We focus on design to meet the customers needs and expectations

Our experienced design team produce conceptual and technical designs using the latest product development software giving us the scope to design and manufacture products that are often unique to our clients.

As well as our comprehensive range of standard equipment, we offer a bespoke service that allows us to create unique products to meet the demands of each client and project.

Discover Manufacturing

Manufacturing has always been at the heart of our business and we pride ourselves on producing well engineered, high quality, durable play equipment from our UK workshop.

Our experienced fabricators work closely with the design team to realise their vision. We work as a team to anticipate challenges and find solutions to meet the demands of our customers. Massey and Harris have embraced and invested in technology where it offers benefits to the efficiency of manufacture and excellence of our products enabling us to offer quality equipment with great play value and product longevity.

“

I have now worked with Massey and Harris on three playground projects where together we have designed bespoke pieces of play equipment. It has been a collaborative process where my initial conceptual idea has acted as a design brief which Massey and Harris has realised into a three dimensional model. A creative dialogue is on-going throughout the development and Massey and Harris brings a wealth of expertise within the field of play equipment, materials and safety standards. Both friendly and professional, they are great to work with and offer an excellent service.

Discover Slides

“ ”

When the idea of a slide was first mooted, it was really more of a joke than a real suggestion. But the more we thought about it, the more compelling it seemed. We were looking for something that gave us an immediate design USP. We weren't sure if we had enough space but the design team at Massey and Harris were really helpful. We have been delighted with the slide both from a design perspective and from a customer feedback perspective too. People love it and feel it gives an element of 'fun'.

Discover Bespoke

The designer listened to the brief and understood we needed something different to everything else. Massey and Harris worked well with the client team and in meeting the brief realising a completely bespoke design for Heaton Park which is what it needed as a destination park.

I particularly liked the uniqueness of the design and it has proved a huge success with all users.
