

Springers

(technical specification)

J951

1- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

2- **The platform and the seats** are made from a 12.5mm thick textured and non-slip compact material (HPL).

3- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

4- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

5- **The springs** are made from Grade 35SCD6 steel, shot blasted, stress relieved, zinc coated and finished with two coats of epoxy polyester powder. Proludic have patented an exceptionally strong and secure polyamide fixing for the spring, ensuring a long product life.

6- **Plastic parts** are made of injected polyamide.

7- **The handles** are made of very strong polyamide plastic.

8- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
