

Kanopé

(technical specification)

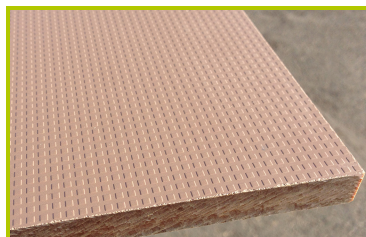

J5609-C

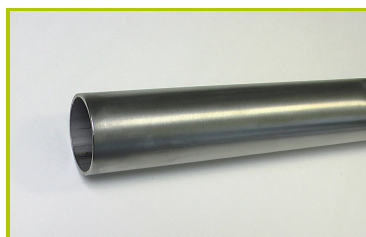

1- Galvanised, painted steel posts 95x95mm, guarantee long term durability.

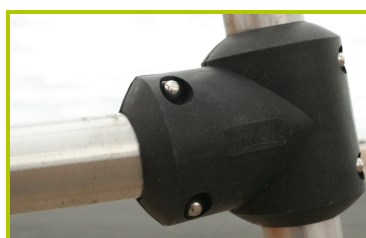

2- The coloured panels are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- The platforms are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- The tubes are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- Injection moulded polyamide fixings connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

6- The sliding surfaces are made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

7- The 16mm diameter ropes are made of galvanised steel cable covered with polyester. The cables are linked together and held in place by injected polyamide spheres.

8- The 16mm diameter rope is made of galvanised steel cable covered with polyester.

9- The climbing holds are made of polyamide for its strength and rigidity.

10-The fixings are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
