

Adventure

(technical specification)

J38553

1- **Galvanised, painted steel posts 95x95mm**, guaranteed long term durability. The caps are made of injection moulded polyamide.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platforms** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

6- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

7- **The cables** are linked together and held in place by injected polyamide spheres.

8- **The fittings** are made of polyamide and are used to link three cords together.

9- **The sliding surfaces** are made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

10-**The steps of the catwalk** are made with a non-slip rubber overmould.

11-**The climbing holds** are made of polypropylene. They are non-toxic, inflammable and shock and UV resistant.

12-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
