

COUNTY

TURF

where the grass is always greener

Introduction

County Turf is a leading grower and supplier of consistently high quality sports and amenity turf. We are a long-established family business growing more than 1,300 acres of turf on some of the coarsest, free-draining sand rootzone in the UK.

We pride ourselves on the quality of each and every roll of turf we harvest. It is established from the very best STRI-listed cultivars and grown for at least fifteen months, without netting, to ensure our customers receive strong turf with a thick sward that can be laid without wastage.

All our turf is treated for Annual Meadow Grass and undergoes a comprehensive fungicide programme during the winter months to ensure it is free from disease. A fully-integrated irrigation system ensures year-round consistency of both quality and supply.

To help us achieve our high standards we have invested in fully trained staff, along with the latest machinery and turf technology to ensure our turf is grown, maintained and harvested to the highest possible standards. We are members of Turf Producers International and the Turfgrass Growers' Association, supplying TGA certified turf grown to its stringent criteria.

Sports Pitches

Winter games pitches at any level often have busy match schedules to contend with, so it's important they're resilient and recover quickly after fixtures. We're specialists in supplying turf that meets the requirements of all levels of sport from parks pitches to Premiership. It is grown from the latest ryegrass cultivars, our turf produces a fast-rooting, hard-wearing surface that retains a rich winter colour.

- Football Clubs
- Rugby Clubs
- Cricket outfield
- Sports grounds
- Schools, colleges and universities
- Racecourses
- Polo pitches

Finer turf grades are available for bowls and tennis clubs and croquet lawns.

We now offer turf grown on Fibresand and custom grow turf on bespoke rootzones upon request.

We've years of experiences of laying turf for top sports clubs and can supply rolls up to 1.25m wide. Please ask about the use of our specialist laying equipment along with the assistance of our qualified staff.

Golf

Years of experience and the perfect, sandy Lincolnshire land enables us to offer a range of turf grades for use across the golf course.

Greens: We supply the finest quality greens turf grown on natural sands that are very close to USGA specification. It has a fine texture and a dense, closely-mown sward to produce the perfect putting surface.

Tees: We offer low maintenance turf with a medium/fine texture and superb, year round colour. It is tolerant of drought, shade and wear and is available with or without rye grass.

Shade: If the health of your turf is an issue in shaded areas of the course, our County Shade turf provides the solution. The medium texture, low-maintenance turf is grown using grass cultivars which flourish in a shaded environment. It is grown for a minimum of 18 months before harvesting.

Bunkers: We are also able to supply downgraded turf and revetting turf for bunker repairs.

Washed turf is now available for specialist situations.

County Turf Product Range

Landscape and Lawn

Whether you maintain a Stately Home or a family lawn, you can get the finest quality turf for all landscaping and lawn requirements from County Turf. Our most popular grade, Greenscape, is suitable for general lawn use and amenity landscaping. It has a medium texture and will root quickly once laid. The turf is extremely hard wearing and will keep its colour all year round.

We also supply a luxury turf for high quality ornamental lawns and prestige landscaping projects. It is only suitable for experienced landscapers and gardeners who are able to give it the specialist attention it requires.

Turf for low budget schemes and general contract work is also available and we provide a laying service upon request.

It's important to select the right turf for your situation. Our experienced staff will be pleased to assist you with your selection and can offer advice on laying and after-care.

Our Services

Nationwide delivery at a time to suit you: We offer fast, reliable, nationwide delivery and are able to guarantee the time of delivery for single drop loads on our own fleet of lorries. Fork lift facilities are also available if required.

Year round availability: We're able to harvest turf at any time of the year due to our sandy, free draining land. This coupled with our nationwide network of distributors, ensures that our turf is available all year round.

Choice of roll size: You will receive strong, light, cleanly and uniformly-cut turf supplied in standard 1m sq. rolls or large rolls in widths of 0.75 and 1.25 metres. We also offer washed turf for specialist projects.

Laying and contracting service: We can supply and lay turf and offer a full contracting service upon request.

After sales: At County Turf we pride ourselves on the quality of our after sales service. Our experienced staff will be pleased to discuss your requirements with you and can offer advice on selecting the right turf for your situation.
