1 SHEFFIELD STANDS (STAINLESS STEEL)

To provide a smarter guide rail or Sheffield stand Falco can also offer you the stainless steel versions in different lengths. In either 316 or 304 quality to give you maximum durability outdoors.

The standard product is manufactured from Ø48mm tube with a height of 1,250mm for below ground fix. The stainless steel Sheffield stand is also available with base plates as a bolt down version.

2 SHEFFIELD STANDS (WITH CROSS STRUT)

Identical to the guide rail above but then with an intermediary tube. Also available with a base plate for bolt down.

Part code 05.241.000
