

Tylö steam shower i170 – a spa-experience shared with built-in steam bath.

Tylö steam shower i170

With the Tylö steam shower impression 170 you can have a shared bathing experience with steam bath and shower and room for two. The Tylö steam shower i170 is a flexible solution, with a Scandinavian design, and can easily be adapted to existing house design (see suggestions on next page). With its economical outer measures the Tylö steam shower i170 fits the small and medium sized bathroom – and everyone who likes a spa-experience shared.

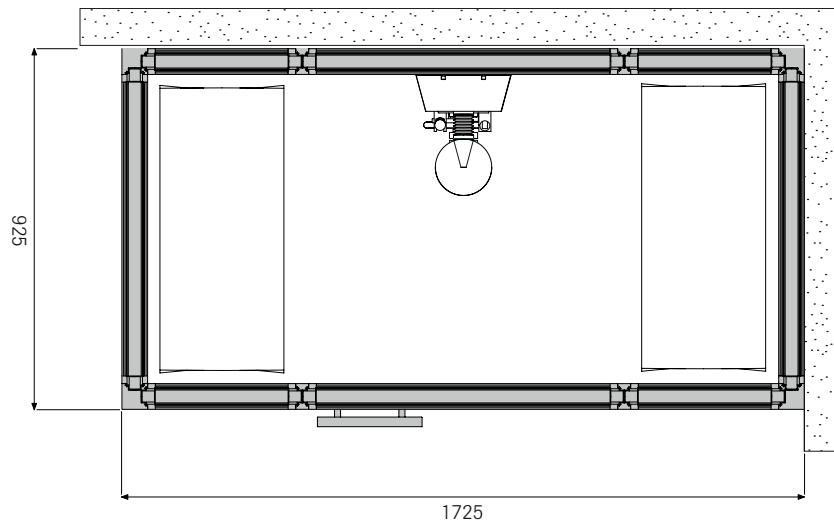

THE TYLÖ STEAM SHOWER i170 INCLUDES:

Wall and ceiling sections • Light fittings • Door section • 2 benches • Shower, mixer tap and steam generator • Control panel • Assembly hardware

The steam bath is easy to manoeuvre with the control panel.

Here you have a bird's eye view of our complete, prefabricated Tylo steam shower i170. You can see size, the possible locations of the shower/steam column and how the interior is designed. The Tylo steam shower i170 can be installed mirror fashion and the door can hung to open either left or right.

Some of many assemble alternatives for the Tylo steam shower i130.
