

The logo is a circular emblem. It features a thick white outer ring. Inside this ring is a band with a wavy, wood-grain-like texture in shades of olive green and tan. The center of the logo is a solid black circle. Overlaid on this black circle is the text "SECTINO" in a white, bold, sans-serif font, with a registered trademark symbol (®) to its upper right. Below "SECTINO" is the word "MOULDINGS" in a smaller, olive-green, sans-serif font.

SECTINO®
MOULDINGS

SECTINO[®] MOULDINGS

Sectino Mouldings supply the perfect finish for quality hardwood flooring.

In this catalogue we present a comprehensive range of mouldings, thresholds, nosings, skirtings and accessories that are available off the shelf or, for larger contracts, as bespoke, made to measure solutions.

Available in pre-lacquered and un-lacquered timber, our select range of accessories, are made from the finest wood and machined to a very high standard. The products are individually packaged in water resistant sleeves to maintain shape and protect from scratching.

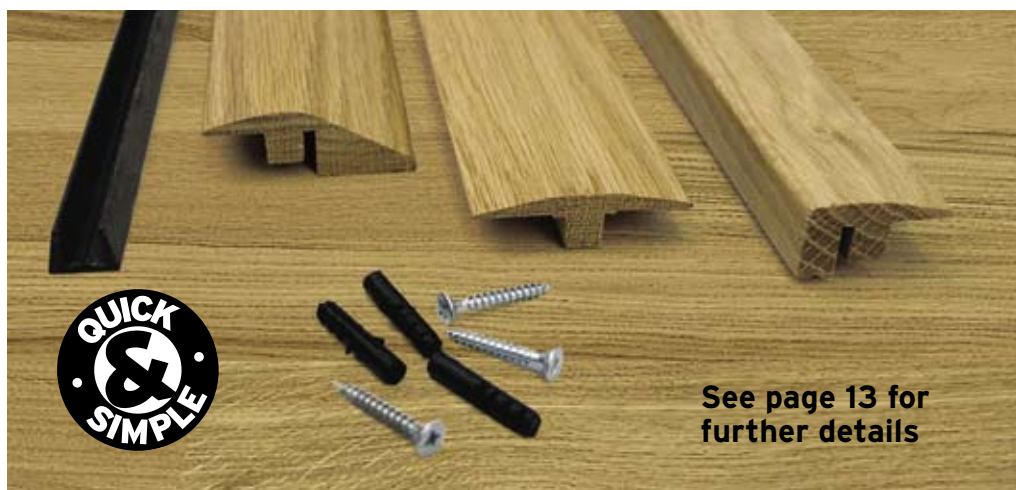

With species ranging from maple to merbau and numerous shades in between getting the exact match shouldn't be a problem, and for more unusual combinations the versatile unfinished range can be used with stains, oils and waxes to give the required effect.

If it isn't in this catalogue, don't panic, contact your local stockist and ask about the Sectino bespoke service. With our experience and your aspirations, the results are limitless.

CODE	PRE-LACQUERED	LENGTH
WLF100	Natural Oak	2400mm

WOODfix Skirting Clips

Woodfix skirting clips have been designed for the hidden installation of veneered torus skirting (VTS F10) on page 10.

Single groove fitting instructions below, for double groove repeat the process

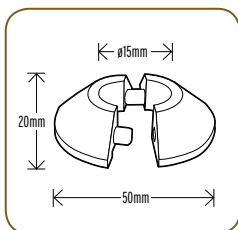

Code WSC 550

Contents
30 Woodfix clips
30 screws
30 wall plugs

Clips are sufficient for 20m skirting, single groove and 10m skirting, double groove.
