CERRO – THE SEAT WITH STYLE

Designed for Neptune Outdoor Furniture by the award winning team Rodd Industrial Design.

Combining strong and practical construction with refined detailing the Cerro fits comfortably within many locations including modern developments, historic cities, financial centres, urban parks and quay sides. The open arms of the Cerro add a contemporary and friendly feature to the landscape without losing sight of the core values of strength and durability.

Incorporating high quality cast aluminium, zinc plated steel and naturally durable hardwood the Cerro seat weighs in at a hefty 120 kilos.
