Wicksteed - Naturally

Sliding has always been a favourite pastime for children of all ages and slides are included in many of Wicksteed's multi-play systems. This section is all about stand alone items - giving children that sense of rapid descent they love to experience.

Combat Cableway

Product code 6190-006

Suitable for flat or gently sloping sites, this one-way 20m zip slide, with a rubber button safety seat suspended by a plastic coated chain and support mechanism, transports the rider from a launch platform to a buffer stop at the end of the ride.

The steel support structure is manufactured for heavy-duty use and has a tensioned steel overhead cable with an accessible cable tensioner for routine maintenance. A hot-dip galvanised finish is standard for the steelwork. The steel frame can also be polyester powder coated if required at an additional cost.

Safety Surfacing Area
1.0m FFH: 21m² x 40mm

The plan shows the area of Wet Pour (with rubber pin kerb edging) that is recommended for installation below the riding area of the Combat Cableway on grassed sites. Additional surfacing is required if the Cableway is installed on asphalt or concrete. Please ask for an exact safety surfacing specification for your site.

Wide Slide

Product code 901-WIDE

Our Wide Slide has been designed for integrated play. Children with special needs can play with able-bodied friends or be helped down by adult carers. The slide is wide enough for a child and helper to slide down together. Play panels from our Tropica Multi-Play range - e.g. Jungle Clock, Cog-Wheels, Sands of Time and Animal Pairs Game can be incorporated at the lower level for added play value.

Wet Pour Safety Surfacing
1.0m FFH: 29m² x 40mm

Cheese Slide

Product code 6050-070

A delightful unit for toddlers to learn to both climb and slide. Access onto the slide is via a ramp with hand and foot holds and it's wide enough to allow two toddlers to slide down together.

Wet Pour Safety Surfacing
1.0m FFH: 16m² x 40mm

Embankment Slides

A clever way of converting a sloping area which may not be used much, into an exciting play feature - our Embankment Slides are ideal for a bank with a gradient of around 30°.

Embankment Slides are available in six standard lengths. We recommend that we carry out a site survey before providing you with a quotation, to ensure the design suits your requirements exactly.

Product code	Overall length	Chute	Runout	Bank height	Bank length
6050-008	3400mm	2440mm	660mm	1000mm	2000mm
6050-009	4400mm	3150mm	885mm	1350mm	2700mm
6050-010	5800mm	4270mm	1270mm	1850mm	3700mm
6050-011	7300mm	4820mm	2180mm	2200mm	4400mm
6050-012	9100mm	5700mm	3100mm	2650mm	5300mm
6050-013	11000mm	7600mm	3100mm	3550mm	7100mm

No Safety Surface is needed for Embankment Slides.
