Swing Features

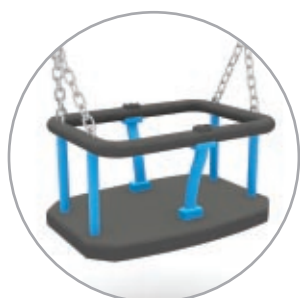

Flat Safety Seat

Product code 5901-002

Cradle Safety Seat

Product code 5901-020

Swing safety features and anti-vandal components

Safety Guards

Product Code 5901S005

Safety Guards are designed to bolt onto the main structure of Wicksteed Traditional Swings to protect children from swinging seats. Angled uprights prevent them from running into the path of the swing. Supplied in sets of four, Safety Guards can also be fitted to existing installations.

Safety Barrier

Product code 5901-030

Safety Barriers help stop children walking into the path of moving swings and, used at playground entrances and exits, they slow children down.

Rotating Swing Bearings

All Wicksteed Arch and Traditional Swings are fitted with Rotating Swing Bearings as standard to eliminate the problem of tangled chains.

Key Link

The Key Link connects the chains to the shackles. It has been specially developed to make height adjustment very easy.

Twist Link Safety Chain

Our 8mm Twist Link Safety Chains provide a safe and comfortable grip - preventing small hands from being pinched.

Teddy Swing

A swing seat with a difference! Ideal for toddlers and children with special needs.
